IN OTHER STATES.

Michigan Shows No Gain to Republicans.

Detroit, April 5.—(Special)—So far as the charter elections held in Michigan yesterday can be relied upon as showing the relative strength of the parties contesting, they clearly indicate that democracy has held its own in the commanding position secured at the last state election.

As is usually the case, local causes contributed largely to the results, and where democratic losses are recorded in some instances, gratifying returns are found in others.

With these local and temporary influences eliminated, as they will be when the great national issue is made at the coming presidential election, the strength of the democracy as displayed yesterday will be equal to the securing of a party victory next fall.

Des Moines.

Des Moines, Ia., April 5.—The regular biennial city election to-day resulted in a complete republican victory, Lane, republican, for mayor, being ahead of Hill, democratic, fully 6,000 votes. The issues were largely local. Lane is a prohibitionist of moderate type, and that issue was as usual made prominent.

Democratic Victory.

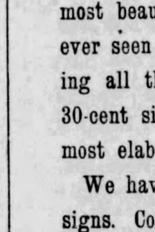
Lancaster, Pa., April 5.—The new city council this morning elected Stephen J. Owens, democrat, city treasurer. The democrats also elected all the other city officers, making a clean sweep.

Helena, Mont.

Helena, Mont., April 5.—Democrats elected John Curtin, mayor, and six out of eight aldermen. The republicans elected treasurer and police magistrate. Last year the republicans elected mayor by 438 majority.

Grand Rapids Republicans.

Grand Rapids, Mich., April 5.—Returns show that W. J. Stuart, republican, has been elected by 415 plurality and that the city ticket is republican by an average of 400. The council will be democratic.



Something you can't do is to get Dr. Pierce's *genuine* medicines at what pretend to be "cut prices." They don't come to you in that way.

To prevent fraud and imposition, the genuine guaranteed medicines are sold only through druggists duly authorized as agents, and *always* at these long-established prices:—Dr. Pierce's Golden Medical Discovery (for the Liver, Blood, and Lungs), $1.00 per bottle; Dr. Pierce's Favorite Prescription (for woman's weaknesses and ailments), $1.00 per bottle; and Dr. Pierce's Pleasant Pellets (for the Liver), 25 cents per vial.

The genuine medicines can be had only at these prices, but nothing else, no matter *what* the price, can be as cheap, for Dr. Pierce's medicines are *guaranteed*. In every case where they fail to benefit or cure, you have your money back. You pay only for value received. Beware of dilutions, imitations, and substitutes, offered at lower prices.

VOTING IN OHIO

Results of the Municipal Election of Monday,

Taken from the Telegraph Wires.

Gains Divided Between Two Parties.

Prohibitionists Score Victories in Many Places.

A Light Vote Seems to Have Been the Order of the Day Throughout the Entire State Loved by the Buckeyes.

Cleveland, April 5.—The election here was for a director of education, seven members of the school council, two justices of the peace and 10 members of the city council. The republicans won, making a big gain over last fall, when McKinley lost the city, but a loss from last spring, when the republicans had early 3,000 plurality.

The election was very quiet, not more than 75 per cent. of the vote being polled. Returns from other northern Ohio towns show some republican gains, though in most places party lines are forgotten in the contest over local issues.

At Akron the republicans elect the mayor and a majority of the council and board of education by the largest majority in six years.

At Painsville the republican ticket was defeated by a citizens' ticket, composed of two republicans and one democrat.

Columbus.

Columbus, O., April 5.—The head of the republican city ticket had the support of the democratic organization in the municipal election and received a majority of about 2,700.

The balance of the republican ticket was elected by 4000 to 600.

There were republican gains in the city council and school board. The sacrifice of the head of the democratic ticket is attributed to pending legislation for Columbus, which it sought to defeat by electing a republican, and making the board of affairs bi-partisan in make-up.

Cincinnati, O., April 5.—The only candidate voted for by the whole city was for the office of judge of the superior court Cincinnati. Twenty-eight thousand nine hundred votes were polled. F. W. Moore, republican, was elected judge by 4,860 majority over L. Jackson, democrat. The republicans elected 10 out of 15 members to the board of legislation and 11 out of 15 to the board of education. The Sixth ward for the first time in its history elected republicans for both of its ward offices.

Republicans Carry Dayton.

Dayton, O., April 5.—Republicans elect mayor, judge of police court and water works trustee, and have two-thirds majority in the city council and nine out of 14 members of the school board. Democrats re-elect clerk of police court, wood measurer and infirmary director.

Urbana.

Urbana, O., April 5.—The republicans carried this city, electing all the officers except one councilman and an assessor. C. H. Gmsong, re-elected mayor by a majority of 321. Urbana township cast 93 republican votes, while not a democrat voted.

Democrats Won.

Bucyrus, O., April 5.—The city election passed off quietly. The democrats elected the mayor, marshal and two councilmen, the republicans electing city solicitor, a street commissioner and two councilmen. This gives the republicans a tie in the city council.

Went Dry.

LaGrange, O., April 5.—In a hard struggle the "drys" carried the election by a small majority in the council which will again rid us of the saloon business. The temperance people are wild with rejoicing to-night over the result.

Light Vote.

Wellington, O., April 5.—Vote very light, no opposition. Township ticket elected: B. Vanator, justice; H. E. Barrett, trustee; A. B. Lambert, clerk; R. N. Goodwin, assessor; H. Hines, H. Manley, A. B. Gates and Willis Mason, road supervisors. Corporation: Mayor, G. L. Couch; treasurer, Wm. Cushion, jr.; clerk, R. N. Goodwin; marshal, S. A. Williams; street commissioner, W. H. Serage; councilmen, E. L. Johns, E. C. Branson, T. R. Herrick; chief fire department, George Hackenbarg; assistants, E. F. McKinney and Henry Schwartz; cemetery trustee, Wm. Vischer.

Republican Victory.

Lima, O., April 5.—Returns from 11 out of 13 precincts of the city show that the republicans have elected the mayor, city solicitor, street commissioner, school board and four out of seven councilmen. The two precincts which are yet to be heard from are reliably republican. Wm. McComb, jr., candidate for mayor, will have about 400 plurality. J. W. Halfhill, or city solicitor, about 650.

A colored judge of election in the Sixth ward is accused of taking the tickets of his illiterate countrymen, making them and depositing them in the box instead of instructing them how to make their tickets. The republicans claim this elected a democratic council man in a republican ward. The fact of a colored man working for a democratic candidate seems to surprise the natives.

Went Democratic.

Wapakoneta, O., April 5.—(Special)—The entire democratic ticket was elected in this city yesterday, as usual, although the majority for mayor was cut from 350 to 99.

The democratic primaries resulted in the selection of the following ticket: Auditor, Robert Gordon; sheriff, Chas. W. Nichols; surveyor, Samuel Craig; commissioner, Wm. Barth; infirmary directors, Henry Schmidt and M. A. Buffenbarger.

Were Right In It.

Coshocton, O., April 5.—Democrats elected mayor, treasurer, city clerk, street commissioner, water works trustees, city treasurer, and two councilmen. Republicans elect marshal and one councilman. Township republicans elected John Speckman justice of the peace, and Hugh Lynch assessor; democrats elect C Casingham clerk, Roy Lockhart trustee, and Isaac Vance assessor.

Republicans Win.

Steubenville, O., April 5.—Republicans elect five out of six councilmen, and five out of six members of the board of education. Democrats elect justice of peace by 200 majority. Balance of township ticket republican. Council and board of education will stand the same as last year—10 republicans and 2 democrats.

Bucyrus.

Bucyrus, O., April 5.—This has been a good election for republicans in Bucyrus, they having elected two councilmen, a city solicitor, and street commissioner. This ties the city council for the first time in years, the two returning councilmen both being democrats.

Democrats Won.

Wellsville, April 5.—The election here resulted in a victory for the democrats. They carried every office for which there was any fight made. George B. Aten, democrat, was elected mayor by 200 majority over J. W. Clark, republican, who was running for a second term.

Zanesville.

Zanesville, O., April 5.—The democrats carried this city by 100 on the head of the ticket. They replaced all the minor officials voted for and gained three members of council, increasing their majority in that body. Hon. William Chambers, republican, is elected common pleas judge beyond doubt.

Democratic.

Kent, O., April 5.—Democrats elect their ticket by good majorities with exception of marshal.

Went Through a Whooping.

Millersburg, O., April 5.—The whole democratic ticket was elected here, both town and township, including member of school board, by majorities ranging from 82 to over 200.

Went Dry.

Hudson, O., April 5.—The liquor question was the chief issue in the election. The republicans nominated a "dry" ticket and were successful by a vote of 120 to 92 for the democrats.

O. U. A. M.

Cadiz, O., April 5.—In the school election the citizens' ticket, nominated and supported by the Jr. O. U. A. M., overcame a republican majority of 300 and was elected.

Dry Victory.

Geneva, April 5.—The borough election resulted in a victory for the dry ticket. Henry Means was elected mayor.

Democratic Victory.

Cygnet, O., April 5.—The entire democratic ticket is elected here by large majorities. Sultz, democrat, defeated McGovern, republican, for mayor, two to one. O'Connor, democrat, had 133 votes for council, against 43 for Craun, republican. Hart and Mackey, democrats, are also elected, defeating Southwick and Sypher, republicans.

Light Vote.

Elyria, O., April 5.—The entire republican ticket at this point was elected, a small vote being polled. The project to advance from a village to a city of the second class, fourth grade, carried, as did also the project for a new jail.

Norwalk.

Napoleon, O., April 5.—(Special)—The republicans made a clean sweep in this city yesterday with the exception of two assessors and one councilman in the First Ex-Postmaster Vail, democrat, for water works board was defeated by 179.

The republicans elect four councilmen, the democrats two, making the incoming council stand six republicans, four democrats. The present council stands seven democrats, three republicans.

Tiffin is Democratic.

Tiffin, O., April 5.—The election passed off quietly and an unusually light vote was polled.

John L. Fisher, democratic candidate for city commissioner, defeated Semider Chamberlain, who for many years has held that office. The republicans elect Geo. M. Eidt to the council from the Third ward and re-elect P. J. Wilson in the Fourth.

The democrats carried the other three councilmen, W. H. Heilman, M. L. Albrecht and Wm. Heller, and two members of the board of education were re-elected, J. L. Hershberger and P. H. Jayne.

Fostoria.

Fostoria, O., April 5.—The election passed off very quietly, the republicans making a clean sweep. A big fight was made against Taylor Hale for water works trustee, but he is elected by over 50 majority.

The new council will stand nine republicans and one democrat.

The election resulted: J. T. Hale, water works trustee; B. T. Nichols and A. E. Merine, gas trustees; W. D. Robbins, cemetery trustee, and L. J. Hinong, R. W. Hale, George W. Cunningham, L. A. Henry, and John Boley, councilmen in the five wards.

Democrats on Top.

St. Marys, O., April 5.—(Special)—The election was the hottest ever known here. An unusually large vote was polled. The democrats, as usual, elected everything. The mayoralty contest was very warmly contested, the fight being waged between the editors of the two local papers.

Napoleon.

Napoleon, O., April 5.—(Special)—There was much scratching done on both tickets at yesterday's election, and the counting consumed a greater portion of the night.

The corporation democrats elected their whole ticket with the exception of H. S. Groschner, who was defeated for councilman by A. J. Vanderbroek.

The township democratic ticket was elected by large majorities with the exception of one justice.

Whitehouse.

Whitehouse, O., April 5.—(Special)—Election passed off agreeably. In Whitehouse precinct of Waterville township the whole democratic ticket was elected, from 25 to 40 majority.

Whitehouse school board stands two republican, one democrat.

In Whitehouse corporation Judson, rep., was elected mayor by 13 majority. His opponent, Strohl, was elected treasurer of Waterville township and member of Whitehouse school board.

The vote was as follows—Whitehouse precinct, democratic ticket:

For trustee, John Utz, 111; For justice of the peace, Fred A. Butler, 112; for clerk, Sylvester Strohl, 108; for assessor, Whitehouse precinct, Willard Doren, 105; for constable, Jacob C. Meyers, 108.

Republican ticket—For trustee, Jno. N. Esworthey, 74; for justice of the peace, Edward R. Sly, 72; for clerk, Lewis W. Goodman, 75; for assessor, Whitehouse precinct, John F. Lehman, 80; for constable, Eugene Barker, 76.

Bellevue.

Bellevue, O., April 5.—The election was very quiet and resulted as follows: Mayor, Dr. G. S. Lanterman, R.; clerk, Louie P. Oehm, D.; treasurer, H. B. Acker, R.; marshal, J. H. Korner, R.; water works trustee, W. H. Erdrich, D.; sealer E. E. Hancock, R.; councilmen by wards: First, I. H. Molland, R.; Phillip Cupp, D.; Third, George M. Dillon, R.; George James, R.; Fourth, C. F. Long, School board, H. A. Schlicht, D.; A. B. Viall, R.

Alliance Democrats.

Alliance, O., April 5.—Party lines were entirely eliminated in to-day's contest. M. B. Excell, democratic candidate for mayor, was elected by 275 majority over Charles Chapman, republican. George W. McFarland, democrat elected marshal by 150 over J. S. Burt, republican. A. C. Strong, republican candidate for solicitor, elected by 200 majority over A. J. Getty, democrat. The council and school board will be strongly republican.

Youngstown.

Youngstown, O., April 5.—Returns received from nearly every precinct in the city indicate the election of I. B. Miller, republican candidate for mayor, the entire republican ticket, including city council, board of education, and all the township officers. The vote received gives Miller a majority over Dill, democrat, and Shay, prohibition candidate. The latter was indorsed by the Independent Political Railway club.

Willoughby.

Willoughby, O., April 5.—The municipal election was very close, and the interest intense. The result was as follows: For mayor, L. W. Penfield elected, over John Sellen by 6 votes; for treasurer, W. C. Collister over G. T. Law, by 9 votes; councilmen, Carrel, Smart and Baker; for water works bonds 207, against 54.

A Dry Mayor.

Jefferson, O., April 5.—The village election developed a decidedly mixed condition of affairs. Three regular tickets were in the field and 11 combinations. The "drys" elected the mayor, A. C. White, also the clerk, treasurer, (solicitor, marshal, and two councilmen. The outcome is regarded as a victory for the temperance element.

Democratic Gains.

Ravenna, O., April 5.—The democrats made some gains and elected John E. Sharp township trustee by 91 majority. The republicans elected all the rest of the officers, and A. S. Cole for mayor ran ahead of his ticket, receiving 171 majority.

Close Election.

Cardington, O., April 5.—The election for corporation officers has been the most exciting held in this place for years. Mr. G. F. Pollock, democrat, beat E. Winebar, republican, for re-election two votes. For marshal, J. J. Hannagan, republican, against H. Vanhorn, present incumbent, democrat, was a tie. Jacob R. Barnes, democrat, was elected over J. Pittenger, republican, by 74 votes, and balance of the ticket is republican. The entire republican township ticket was elected.

East Liverpool.

East Liverpool, O., April 5.—(Special)—In the borough election in this city yesterday the republicans made a clean sweep, electing their entire ticket from mayor to assessor in the most obscure ward.

Hall, the present democratic mayor, was defeated by a majority of about 140 by Merley, the republican nominee.

The normal republican majority in the city is about 600.

At Salineville the democrats elected their entire ticket, a notable democratic gain.

A Light Vote.

Upper Sandusky, April 5.—(Special)—A light vote was polled here. Republicans are happy over the result, having elected four councilmen, a thing never before accomplished by them.

The democrats get the other officers—mayor, clerk, treasurer, marshal and assessors, the school board, township clerk and township trustees by the usual majorities.

Findlay Republican.

Findlay, April 5.—(Special)—The entire republican city and ward tickets were elected with the single exception of W. W. Siddall for assessor in the Second ward.

Waltermire, republican for mayor, has a majority of 1,358 over Meehan, the present democratic incumbent.

This was in the nature of a people's verdict, as hundreds of democrats remained away from the polls rather than indorse the present city administration.

Others helped to swell Waltermire's majority.

The city council will stand 12 republicans and 4 democrats.

The city school board will stand about the same.

The above result was looked for by both parties owing to the manner in which the city has been governed for the past two years.

Caldwell.

Caldwell, O., April 5.—At the election the republican corporation ticket was elected by majorities ranging from 100 to 200. Hon. William Chambers received a majority of 178 in this corporation for judge of the court of common pleas. Chambers' majority in Noble county will be from 600 to 800 over Winn, although no definite reports have yet reached this place from over the county.

Newark.

Newark, O., April 5.—Full returns show a Watchico for the democratic ticket. Mayor Nichols, republican, is elected by 357. The democrats elect cemetery trustee, W. H. Davis; civil engineer, H. G. Kingsbury; township clerk, Henry Wulfhoop. Republicans elect five councilmen, Fourth ward being tie. This is a republican majority in council; three out of five republican members of the board of education are elected. This is the first time the republicans have ever had a representation on the school board. It is the greatest victory of the people ever known here.

Democratic Gain.

Canton, O., April 5.—The republican victory of a year ago was turned and the democrats have carried everything except the Seventh ward, where the republicans elect councilmen and members of board of education. The township vote is not known. On the question of workhouse the vote in the city was largely in its favor and it looks as though it carried.

Sandusky.

Sandusky, O., April 5.—At the city election, Louis Dehnel, republican, defeated Crossen, democrat, for water works trustee by a majority of 93. Hugo Ohly, democrat, was elected cemetery trustee over Dan Kunz, republican, by a majority of 67. The democrats elected six councilmen and the republicans four. School board—democrats, 8; republicans, 3.

Fremont.

Fremont, O., April 5.—The election in this city was hotly contested. The democrats elect the mayor and members of the board of education, while the republicans get control of the council. Following is the vote:

For mayor—Berry, republican, 765; Redfield, democrat, 819; Redfield's majority, 54. Water works trustee—Sherrard, republican, 662; Schoedter, democrat, 793; Schoedter's majority, 31. Justice of the peace—Tuttle, republican, 624; Bogue, democrat, 825; Bogue's majority, 201. Board of education—Thompson, republican, 701; Keefe, republican, 625; Dr. M. Stamm, democrat, 788; Moos, democrat, 789; Stamm's majority, 87; Moos' majority, 164. Republicans elect councilmen, Gilmore, by majority of 66; Baker, 19; Mowery, 11. Democrats elect Zimmerman by 154. Assessors—Dwight, republican, majority, 119; Welsh, democrat, 114; Myers, democrat, 175.

GERMAN WAR BALLOONS.

The Plans for Them Said to Have Been Offered to the United States.

Washington, April 5.—If reports about the German war balloon prove true our government will probably have its own negligence to thank for its failure to have this valuable invention under its control.

Plans for a balloon claimed to be capable of absolute control were offered to the war department a year ago by an American inventor. After long and tedious delays it was exhibited to the German minister, and on his advice offered to the German government, and it is believed formed the basis of a plan by which the mysterious aerial war ships have been developed.

VETOED THE BILL.

Gov. Abbett Kills the Reading Consolidation Bill.

Trenton, N. J., April 5.—Gov. Abbett has vetoed the bill legalizing the Reading deal.

IT BLEW GREAT GUNS,

And Much Damage is the Result.

Rain, Hail, Snow and Sleet all Combine

To Make a Spring Opening in the West in Line With Those You Have Read About Before.

Omaha, Neb., April 5.—Storms were in progress throughout Nebraska all day yesterday. Heavy snow prevailed in northwestern Nebraska and heavy rain fell in southern and eastern Nebraska.

The Burlington bridge at Rulo is closed on account of landslide. A 120-foot bank approaching the bridge caved in, and it will be a week before it can be repaired.

All trains are greatly delayed, owing to the fact that the railroad wires are down.

The Union Pacific has no wire to Denver from this point.

Heavy washouts are reported from many points, and railway traffic in the northwest is almost entirely suspended because of snow.

At Chadron and Valentine, in the north, and Akron and Haigler in the west, trains are snowbound and snow is still falling. The storm is general throughout the west.

Heavy Snow.

St. Paul, Minn., April 5.—Specials from the northwest tell of a big rain and snow storm, the latter prevailing with terrific force in the Dakotas, even approaching to a blizzard in intensity in some sections.

Devil's Lake reports a full-fledged blizzard, while Redfield, down in South Dakota, telegraphs at 6 o'clock to-night that a genuine blizzard had been raging since noon and is hourly growing worse.

At Huron the snow during the day scattered among a great deal of rain, nearly three inches having fallen. But the blizzard seems to have extended from the northern part of South Dakota clear across North Dakota.

The snow extended along the Missouri river and over into the Black Hills and at Huron where it had rained so hard during the day it is snowing hard to-night. The amount of moisture in the ground has already retarded seeding 10 days and it will now be further put back by this great storm of combined rain and snow.

In this state snow, with blizzard attachments, is reported in the northwestern portion and it has been snowing and hailing in other portions of the state. The rain here this afternoon was extremely heavy while it lasted and there was some hail. To-night it is growing colder and the storm may be here later on. The heavy rain is reported as extending to the lake. Ashland, Wis., having had such a heavy rain as to delight the souls of lumbermen whose logs were awaiting the spring freshets.

A Redfield, S. D., correspondent says the storm is the worst since 1888, when so many lives were lost, but the two days' heavy rain has kept nearly every one indoors and no casualties are anticipated.

Blew a Gale.

Kansas City, Mo., April 5.—Another storm of great violence has swept over the western states.

So far as advices indicate the storm was not so severe as that of last week, but the telegraph lines in both states have been seriously damaged, and reports are not obtainable from all points where the storm is known to have raged. It may be, therefore, that later dispatches may show that more lives were lost and more damage done than is now apparent. The storm was of a different character in almost every place heard from.

At Cherryvale, Ks., it was a tornado. One mile east of the town the wind destroyed six houses and two people were killed. It has been impossible to learn their names. The news of the disaster was brought to Wichita, Ks., by passengers on the morning train. Up to 10 o'clock last night it has been impossible to get telegraphic connections with Cherryvale, and the particulars of the disaster cannot be learned.

At Burlington, Ks., the disturbance took the form of a hail storm. Hundreds of window lights were broken, and much damage was done to fruit trees and crops generally. The hailstones were eight inches in circumference, and the fusilade which they made upon roofs of houses was alarming.

At Emporia hail also fell, the stones measuring an inch and a half in diameter. The storm prevailed in the country districts in the vicinity of Emporia, and did great damage to fruit trees and crops.

At Fort Scott the storm was the severest that ever visited that city. Many roofs were blown away, stables demolished and outhouses blown down. Several windows in as many store rooms were smashed in, and altogether the damage is very considerable. There was no loss of life, though the narrow escapes were numerous.

Garland, near Fort Scott, a town of about 400 inhabitants, was visited by the same storm. The hail smashed every window in the town and did great damage to crops in the surrounding country.

At Bosworth, Mo., the storm was seen approaching, and the people, naturally nervous after the terrible experience of their Kansas neighbors last week, sought safety in their cellars. The storm came on with terrible swiftness, but as it seemed about to strike the town it veered suddenly to the northeast. In that direction is a thickly settled farming region. Six houses in the path of the storm were demolished. Farris Nardis was badly hurt by flying timbers. Mrs. Wright, the wife of a farmer, was less seriously injured, and several others were slightly hurt.

The storm, besides being similar to a tornado, was accompanied by a water spout which flooded all the creeks. Waukunda creek is out of its banks and is rising rapidly. The creek is just east of the high rock road. The road is inundated and the fields for miles down the creek are under water. The crops there have been entirely washed out and the farmers will be obliged to replant their fields.

IN THE CYCLONE'S PATH.

Additional News of the Great Storm of Yesterday.

Chicago, April 5.—Another heavy storm, this time accompanied by floods in some places, caused much damage to property, loss of life and injury to person, in the west, northwest and southwest yesterday.

The territory covered was almost the same as that devastated by the hurricane of last Friday, and although the effects were not so disastrous as those of the earlier gale, enough has been learned to show that the visitation was heavy.

As before, Kansas bore the brunt of it. At Cherryvale there was a genuine cyclone. A funnel-shaped cloud in the afternoon was seen approaching the town from the southwest. It was accompanied by a deep, roaring sound, and as it drew near it could be seen turning and twisting with terrible velocity.

It traveled with incredible speed and barely missed the town, passing one mile to the southwest.

It demolished six houses in that vicinity, killing one person and fatally injuring two others. The dead are: Mrs. E. R. Lawson, struck by lightning; Mrs. John Reeves, crushed with her dwelling.

The fatally injured are: Mrs. Perry Nixon, John Reeves.

The house of John Reeves, a farmer, was torn to pieces by the cyclone. Mrs. Reeves was killed outright and Mr. Reeves was fatally injured. Mrs. Perry Nixon, the wife of another farmer in the vicinity was also fatally injured in the demolition of her house. Mrs. E. R. Lawson, of this city, was struck by lightning during the storm and was instantly killed. The damage to barns, outhouses, fences, etc., is great.

At Burlington the disturbance took the form of a hail storm. Hundreds of window lights were broken and much damage done to fruit trees and crops generally. The hail stones were eight inches in circumference.

At Emporia hail also fell, the stones measuring an inch and a half in diameter.

At Fort Scott the storm was the severest that ever visited that vicinity. Many roofs were blown away, stables demolished and outhouses blown down.

Blockaded by Snow.

Holyoke, Col., April 5.—The Burlington road is blockaded here with snow. Plows are working both ways, but no trains can get through from either direction. The blizzard was raging with great fierceness last night.

THE CHINESE BILL.

The Provisions of the Act as It Passed the House.

Washington, April 5.—The Chinese exclusion bill as it passed the house absolutely prohibits the coming into the United States of Chinese persons, except ministers or other diplomatic representatives, consuls general, commercial agents and other agents of the Chinese government traveling on business.

Vessel masters knowingly bringing Chinese will be fined not over $500 for each person so brought, and imprisoned one year. Persons swearing falsely in regard to being entitled to admission under this act shall be fined not less than $1,000, and imprisoned not less than one year.

Chinese entering the country are to be tried, and if convicted are to be imprisoned not over five years and then returned to the country whence they came. No more Chinese are to be naturalized.

All Chinese now here are to apply for certificates of residence, and any Chinese found after one year after the passage of the act without such certificate are to be judged as unlawfully in the United States and punished the same as new comers.

All acts inconsistent with this law are repealed, and the provisions of all treaties that conflict with it are abrogated.

AT THE STATE CAPITAL

Griffin Introduces Four Bond Bills.

Birds for the World's Fair—Miscellaneous News Gathered at the State Capital.

Columbus, O., April 5.—(Special)—Mr. Iden's bill providing for the appointment of an inspector of plumbing and two assistants in cities of the third grade of the first class and cities of the first grade and second class, was discussed for some time, amended so as to except Cleveland, Cincinnati and Toledo, and then passed by the senate.

Mr. Burns' bill has passed the senate, requiring county commissioners to offer for competitive bids all contracts for work involving the expenditures of over $400.

The house has passed the Gilliland bill authorizing the trustees of any township in Van Wert county to issue bonds not to exceed 12 per cent. of the last tax duplicate to improve roads after the question has been submitted to a vote.

Under the suspension of the rules Mr. Winn's bill authorizing commissioners of Defiance county to levy an additional tax of one mill for county purposes, passed the house.

Mr. Haynes' bill directing county auditors to print a list of delinquent lands for two weeks in one English and one German paper has passed the house.

Representative Griffin will this afternoon introduce a bill authorizing Toledo to issue $60,000 in bonds for fire department purposes. Same to run 30 years, 4 1-2 per cent. interest.

Birds at the Fair.

World's Fair Commissioner Ryan states that a very fine and complete collection of birds found in the state will be sent to the Chicago exposition. Every variety of bird and fowl will be represented.

To Correct an Evil.

A bill is being prepared to make corporations incorporated under the laws of other states, and doing business in Ohio, subject to the same tax and stockholders' liability as corporations incorporated under the Ohio laws. Many have gone to other states to be incorporated for the purpose of evading the tax and liability of stockholders.

THE SWAN CREEK BRIDGE.

Mr. Griffin Has Dumped His Bill in the Hopper.

Columbus, O., April 5.—(Special)—Representative Griffin yesterday afternoon introduced a bill authorizing the city of Toledo to issue bonds for bridge purposes. The bill was read twice under suspension of the rules and referred to Mr. Griffin with leave to report at any time. The following is a full text of the same:

Section 1. Be it enacted by the general assembly of the state of Ohio, that the city council of any city of the third grade of the first class be and the same is hereby authorized and empowered, for the purpose of procuring funds for the construction of bridges, to borrow a sum of money not exceeding $75,000 and issue the bonds of said city therefor in denominations of not less than $500 nor more than $1,000, each payable in not less than 15 years nor more than 25 years from the date of their issue, and bearing interest at a rate not to exceed 4 1-2 per cent. per annum, payable annually or semi-annually as such council may determine. Such bonds shall be designated, issued and sold in all respects in such manner as is or may be prescribed by law.

Sec. 2. This act shall take effect and be in force from and after its passage.

CAME FROM OHIO.

Five Deaths Occur from Buckeye Diphtheria.

Columbus, O., April 5.—Secretary Probst has just received the following letter from Dr. H. B. Baker, secretary of the Michigan state board of health: "Some time ago I was informed that diphtheria was present in the family of James Clough, in Ogden township, Lenawee county, Mich. The 'final' report received a few days ago from the health officer (Dr. A. O. Wotring, Ogden Center, Mich.) states that eight cases occurred with five deaths. The source of the contagion as given was: carried in clothing from Metamora. I learn from a letter received from Health Officer D. Wotring, that the Metamora to which he referred was in Fulton county, O., and not in Lapeer county, Mich., as I at first supposed."

REID HAS RESIGNED.

Whitelaw Pines for the Coming Political Battle.

Washington, April 5.—Hon. Whitelaw Reid, minister to France, called at the executive mansion this morning, accompany by Secretary Blaine, and had an interview with the president.

It is understood that Mr. Reid tendered the president his resignation as minister to France, to take effect upon the appointment of his successor.

SUED TO RECOVER.

St. Marys, O., April 5.—(Special)—Mary M. Russell and Marilla O. Shaw, sisters, of Turtle Creek township, have each filed a suit in the common pleas court of Shelby county against their brother, James G. Russell, as administrator, to recover from the estate compensation for services in nursing and caring for their parents.

The service was rendered to the old people during the last two or three years of their lives. Mary wants $3,258 for what she did and Marilla thinks she did as much, and asks the same, making the combined claim $6,516.

SENATOR BURNS

Of the Twelfth Ohio Senatorial District Makes a Strong Statement.

A Case That Dates From the Late War and Illustrates the Success In Cases of Long Standing.

The following statement from Senator Thomas A. Burns, who represents the Twelfth senatorial district in the present Ohio legislature, will be read with much interest by the senator's many friends in this city and vicinity. The statement is in his own words and over his signature:

"While in the federal service in the winters of 1861-62, I contracted a heavy cold, which brought on pneumonia and resulted in disease of the lungs and throat. From that time until my term of service ended, November, 1865, I was more or less affected. Just after my return from the army I had profuse hemorrhage of the lungs, which has occurred at intervals several times. About 1874 I was attacked with catarrh of the throat and lungs, and gastric catarrh of the stomach, which prostrated me for thirty days, so that I was not expected to recover. In the fall of 1881 I had another attack of catarrh of the head and throat which produced gathering in the head; entire deafness of the left ear; soreness of the throat and trachea, extending to the lungs, with profuse discharge from the nose and throat. In this condition three eminent physicians despaired of my recovery, and told me that I would have to procure other medical assistance, as they could do no more for me. I applied to a prominent physician of Cincinnati, specialist for throat and lung diseases, who gave me treatment, and I think did me much good, and I believe would have effected a cure had his diagnosis discovered the true cause of my disease. I have been treated for twenty years past by three very eminent physicians at my home, and to whose medical skill I give the honor affording me temporary relief.

"The first of January, 1892, seeing Dr. Copeland and associates' notice of treatment for catarrh and lung diseases, I called on them at their offices. Their diagnosis was so thorough that I was convinced that they had discovered the true cause of my debility. At my second visit the doctors removed from the nasal passage of the left side a polypi tumor larger than a quail's egg, and from the right side a tumor about half the size of the other. The operation was performed without pain or other inconvenience, and did not necessitate an hour's loss from business.

"I have been under the doctors' treatment for two months. Since the removal of the tumors or polypi I have experienced no trouble at all with catarrh of the head. My throat has not been sore since the operation. My general health is much better than it was before the treatment, and I feel greatly encouraged and that I shall not experience any further trouble with nasal catarrh.

"I want to say this is not a paid statement, but given for the benefit of any who may be likewise suffering.

"Dr. Copeland's charges to me were $5 per month and no more."

THOMAS A. BURNS.

Mr. Rice's Case.

It is rarely that the specialist, whose observation covers a wide range of throat and lung troubles and whose experience brings him in contact with many of the serious and desperate cases resulting from neglected catarrh, sees a more pronounced case and one more typical of what head and throat trouble, if neglected or not properly treated, may develop into, than the case of Mr. Ancil G. Rice, of 219 Dix street. As near as possible we give his own words:

"My trouble has all been due to chronic catarrh," says Mr. Rice, "and it was not neglected, either, for I have doctored for years, but been improperly treated. I had occasional violent headaches. My eyes were weak and watery and my nose was continually stopped up. I was forced to breathe through my mouth.

"My throat was always filling up with the dropping of the mucus from the head. I was hawking and spitting all the time. My throat was at times very sore and raw. My rest was poor at night and I was really unfit for business in the morning.

"As I said, I tried many prominent physicians, but experienced very little relief. I had heard and read of the success of Dr. Copeland and associates, and concluded to give them a trial. I did so with the result that my pains, aches and other troubles are all gone. The change in my condition is such that I unhesitatingly recommend Dr. Copeland and associates to all who suffer as I did."

Nasal Polypi Described by a Patient.

"I had been troubled for a number of years," said Mr. George Hoffman, of 107 Empire street. "My head and nose was completely stopped up and I had to breathe through my mouth. This was due, in a measure, to the accumulation of mucus, but more especially to a number of polypi tumors which filled both nostrils. I had treated with a number of physicians but none of them discovered the tumors. Some time ago I called on Dr. Copeland and associates, and placed myself under their treatment. They immediately removed seven polypi tumors and I was able to breathe through my nostrils, something I had not done in years. They then treated my catarrh, and I am happy to say I am feeling better to-day than I have for years. The removal of the tumors was without the slightest pain or loss of blood. I cannot recommend Dr. Copeland and associates too highly."

Results In a Case Treated by Mail.

Portage, O., Feb. 9, 1892.
Copeland Medical Institute, Toledo, O.:
Gentlemen:—Since taking your treatment for catarrh, I am very much better. My general health is much improved, my sense of smell has returned. My case was a chroule one and will require time. I am greatly encouraged and anticipate a complete cure. Refer anyone to me.

Yours respectfully,
N. C. BESANSON.

A Prominent Real Estate Agent Tells of the Removal of Twenty Polypi Tumors.

Among the many prominent real estate agents in Toledo, none are more popular or more favorably known than Mr. J. J. Sumner, whose offices are at the corner of Superior and Madison streets, and who lives at 721 Prouty avenue. Mr. Sumner tells of his experience with Dr. Copeland and associates as follows:

"I had catarrh for a long time. My nose stopped up so that I could breathe only with great difficulty. In damp weather I could not breathe at all. I suffered from terrible, racking headaches. I often thought my head would burst with the throbbing and the pain. There was a constant flow of mucus from my nose, and my eyes became sore and watery. I did not sleep well, and I found that I was losing my sense of smell. I was most distressed, however, about my voice, which changed in tone until it sounded as if I pinched my nose with my fingers while talking.

"I was quite in despair, when after reading the testimonials of the patients of Dr. Copeland and associates I determined to make a trial of their treatment. I accordingly went to the Copeland Medical Institute, and it was only a short time until I began to breathe through my nose, until the headaches disappeared and until the polypus growths were removed. I can now hear the natural voice that has returned to me, much to my comfort and delight. I sleep well and I feel well. I have only one fear, and that is that the polypi may return, so I have concluded to continue the treatment for another month, at the end of which time I shall be forever rid, I hope, of the complaint that for four years made life a burden to me. I am glad to add my small tribute of praise to the splendid work of these physicians."

ON THE FOREST TRAIL.

Lieutenant Schwatka and Party in the North.

They Meet With the Indians at Juneau.

A Scarcity of Provisions Cause Some Alarm Among the Members of the Expedition.

Special Correspondence Toledo Bee.

British Northwest Territory, June 9, 1891.—The half day's rest at the pole-bridge camp also gave them another half day on June 6, caused by the packers losing the trail.

A few miles beyond the pole bridge this trail splits into its two main branches, the northern one which we should not take being the shorter and terminating in my old explorations of 1883, at a large lake (Takou) near the head of the Yukon.

This northern trail is now very seldom traveled by the Indians, as the fur-bearing country it taps is given up wholly to the Chilkats, who reach it by another trail.

The weather was yet heavy and threatening the morning of the 6th, as we got away. The white men had been obliged to repair the pole bridge the evening before, the rains having brought down driftwood that damaged it.

It was a good morning for dusky grouse on the trail and a number were secured with the Winchester shot-gun by members of the party. The junction of the two trails proved to be on a wide stretch of broken, angular gravel. The proper trail for us—the northeastern—here led sharply up the mountain slope, the northern path being much the plainer of the two; hence our packers' mistake.

These numerous gravel slides were exasperating to travel over. The gravel was of an uniform angular character as if it had come from a rock-breaker and intended for railway ballasting or the macadamizing of a road. Here was enough to have ballasted the whole length of the

Indian Boy Packer. Dr. Hayes.

Canadian Pacific railway, the longest road in the world, and plenty to spare for constructing all the county roads that could be made in Yavapai county, Arizona, the largest county in the United States.

If a railroad ever cuts through this country—which I think not unlikely for reasons I will give later—it certainly will be well supplied with this necessary and usually expensive material for construction.

As we rapidly ascended the mountain slope by a well defined trail after the gravel cones were left behind, we had the best view of the country that the route had yet presented. Between the two trails lay a great bald mountain, with rounded top crowned with two conspicuous black objects, looking not unlike two houses, and these could be seen for miles on either side.

I think they were huge erratic boulders even at this high altitude. I named this butte the "The Trail Splitter," from its position with regard to the two trails already described. That night we camped on the high slope, 1,350 feet above the river, and where it was not easy work to find enough flat space even to make our beds, so as not to roll down the hill.

Sure enough, "Robert" joined us as he had promised, and which I had hardly expected from the great distance he had had to travel. At this camp the Indians found a small pine squirrel in the stunted spruce, and the way they turned out en-masse after it would have led one to believe that they were on the verge of starvation.

After an exciting chase of ten minutes or so they secured the two-ounce affair

and proceeded to cook it. I knew a native, at another time, to shoot one with a 10-gauge Winchester shotgun, the cartridge used weighing more than the carcass. There were a great many snowbanks on the trail the next forenoon (the 7th) which still led up until the aneroids showed 2,652 feet above river level.

They were not very bad in the early forenoon, but later, when it was warmer, they are very exasperating to encounter. Despite the melting snow through which we floundered we found no drinking water anywhere, the gravel and loose soil absorbing it as rapidly as it was formed.

As we descended the slope, however, the springs reappeared and by the time the valley was reached it was quite swampy in many places. Old moose signs were seen everywhere but not a hair of the animals themselves. In certain low swampy localities probably the mosquitoes and gnats drive them to the higher, cooler altitudes.

Early that afternoon we came to an open but brushy country covered with a kind here known as "moose-bush." It is much harder to make one's way through, when dense, than any other kind I know of, and it requires a skilled backwoodsman indeed to follow a trail through it unless very well traveled. In another hour the moose-bush had disappeared and a beautiful park country stretched out ahead of us. I was on the summit between two forks of the Takou and, while pleasing to the eye as it broke on us, we found it marshy under foot.

Here is a large shallow lake, draining both ways, and on its shores were camped Indians who were outward bound to trade furs at Juneau. Near them our own Indians had camped in order to trade for moccasins with the others, their own being about worn out. For some time there had been growing complaints in anticipation of the Indian food supply running low.

They had brought only about a week's supply, an amount which they can easily dispose of in half that time, and certain kinds were now running out. They were especially pathetic over sugar, a luxury that they seldom had, but which now, singularly enough, seemed indispensable.

A moose, or a couple of caribou, which we had every right to expect, would have settled the question for probably the whole portage, but the chances for game seemed to be fading faster every day.

So when "Robert" asserted that it would

got take six days to reach the big lake, where the packers' contracts ended, they decided to send one member back to the head of canoe navigation after food, while they would divide his pack among them and follow the trail until he overtook them, while I agreed to feed them from my own supplies until then.

"Paddy," a good-natured Takon of fat, squatty proportions was selected for the return and I curled up the corners of his mouth by giving him an extra pair of moccasins to make it in. He got away early next morning, but the packers were much slower in getting "a move on them." They were back in less than two hours, having made only a short distance, "Paddy's" load appearing extra burdensome divided among them.

They reported a number of white grouse (partridge) as having been seen in the open places, but we saw none later. Near the trail we saw a beautiful, bubbling spring boiling two or three inches above the level in its center. Its water was ice-cold, however, and it was the only one of the kind that we ever saw in the whole trip.

About the middle of the forenoon we again came to a large party of fur-traders on their way to Juneau, and there was no mistaking their errand, for every one of them was loaded with furs. There was an Indian boy about 12 years old, who had a pack of them nearly as big as himself.

I estimated its weight at a fair 40 pounds, while others though it might be even 50. The little fellow seemed proud of his burden as we inspected it and even his father seemed happy—though married, for he had three wives.

Just before noon we reached the next fork of the Takou at a second pole bridge, it, too, being thrown over a foaming cataract. From this point on there were two trails that rejoined before the big lake was reached. The usual one led over a high ridge of mountains that at this time of year was liable to be seriously obstructed with snow, while the other, although being the longer, simply kept lower and avoided much of it. All the outgoing Indian fur traders advised us earnestly to take the lower trail, which we did.

There was but little trouble in finding it, but as the upper one was the plainer, signs had to be left so that "Paddy" would not go astray. That afternoon I shot a dusky grouse, and about the same time we lost the new trail for quite a while.

We now crossed many bogs or swamps that half a foot or so below the surface

Second Pole Bridge.

were solid ice. The bunch grass in them gave the hardest walking of all. The black, swollen ankles at night showed plainly how it told on the heavily laden packer.

Rabbit signs being numerous brought out the curious theory from the Indians that about every seven years these little animals have a period of maximum or minimum numbers. If this is so, we had probably struck the minimum period, not only for the rabbits, but of all other game that indulged in variable quantities; and that the signs hung over from the maximum.

We had really seen game signs enough to have supplied a battalion by fair hunting, and to justify keeping out guards to prevent them running over the camp, but outside of the gutta-percha goat and some wrought iron grouse we had tasted no fresh meat so far.

Before starting the next morning the Indians sent up signal smokes to guide "Paddy" on the trail. The third pole bridge, over a most furious cascade, was passed soon after.

All that day we were plowing through moose-brush and floundering through marshy parks. The Indian trail seemed to prefer the bogs to the solid ground with its matted brush. Along the way, at every rest, signal smokes were sent up for Paddy, the packs mostly covered with waterproof canvas suffering several holes as the result of falling sparks. We now encountered a low, trailing plant, known as Hudson bay tea, that afterward remained abundantly with us.

It is said that it makes an infusion similar to cheap tea flavored with nutgalls, but this flattering description did not tempt us to try it.

That night we camped in a forest of dead, burnt timbers which, rotting as it stood, showed that the locality was not given to gales. Just as a couple of Indians were starting back to look up "Paddy," that individual, covered with smiles, hove in sight. He had easily guided himself by the smokes and fires and was loaded with "grub"—the Indian's only idea of the English language for food. That night the camp was a happy one.

WORLD'S FAIR FUEL.

There is an interesting contest on now between the Standard Oil company and the coal dealers to see which shall furnish fuel for the World's fair. Incidentally the relative values of coal and oil for heating purposes are involved. The general comparison is three barrels of oil for one ton of coal. On such a basis the Standard Oil company agrees to furnish oil at the rate of 70 cents for a barrel of 42 gallons during 1892 and 72 1-2 cents a barrel during 1893. That would bring the cost in terms of coal up to $2.10 and $2.27 1-2 a ton. The lowest bid offered by the coal men was $2.38 a ton. The fair will require 75,000 tons, and an excellent opportunity for competition between these two kinds of fuel is afforded.

Neal Dow, the noted Prohibitionist and collector of Southern pianos during the late war, completed his eighty-eighth year last Sunday, and is still in good physical condition.

FOSTER'S FORECASTS

Weather Predictions that Have Been Verified.

In view of the recent severe storms which Prof. Foster predicted in the Bee, it is well to quote the following from his recent letters to refresh the memory of the readers and prove the value of the predictions:

February 5, 1891—"We are now approaching the most destructive storm period of recent years, a period that has not been equaled within the memory of any person now living."

May 17, '91—"Beginning the first week in May of this year, 1891, and ending with the last week in June, 1892, will constitute the greatest storm period since 1832-33."

July 18, '91—"I will repeat that 1891-2 will bring more of these dangerous storms than have been experienced in 60 years."

August 20, '91—"These destructive storms are not expected to reach their greatest force before March, 1892."

December 4, '91—"For 30 years past there has not been a time when the weather was of so much interest as it will be during 1892."

February 26, 1892—"I have often published and will repeat that very severe storms will soon occur on this continent. Western Europe has experienced the greatest storms of the century during the past six months, and it is almost impossible for this country not to go through a similar experience during the next six months."

March 4, '92—"I regard March to June inclusive as one of the most interesting weather periods that will have occurred within a generation past."

March 18, '92—"The last storm wave of March will reach the Pacific coast about the 28th, cross the western mountains by the close of the 29th, the great central valleys from 30th to April 1 and the eastern states April 2 or 3."

THE COMING COUNTRY.

The great Flathead Valley, in Montana, is attracting capital and labor. It is marvelously fertile in soil, has the largest coal veins on the Pacific slope, limitless forests of the finest timber and precious metals. Columbia Falls, the chief town of the region, has immense water power, and offers a good field for manufacturers. MYSTERIOUS FIRES.

Bryan, O., April 5.—(Special)—Six is the number of buildings that were on fire in different parts of Bryan Saturday night. Barns belonging to J. Hudson, H. Bentley, Wiedeman Bros., N. Vineyard, Samuel Moore, and the wheel barrow factory. Vineyard's, Moore's and Hudson's barns burned. There was no insurance on some of the buildings. It is thought to be work of incendiarism. This makes nine fires nearly all barns, Bryan has had in just two weeks.

The Extravagance of Mud.

We have in the United States something like 16,000,000 of horses and mules above the age of two years upon our farms, and at the moderate estimate of 25 cents as the cost of feed and care of each of these animals, we see at a glance that the aggregate expense of maintaining them is about $4,000,000 per day. If by a similarly moderate estimate, we say that they are kept in the stable in a condition of enforced idleness by the deep mud of spring and fall for a period averaging 20 days in each year, we may easily compute that the loss, in this respect alone, will amount to $80,000,000 per year, a sum sufficient to build 16,000 miles of excellent highway. Of course, considering the great variety of conditions, and the consequent number of factors to be regarded, it is impossible by mathematical formula to compute the loss entailed on any community by the continued toleration of these dirt roads in their present condition; but the error in the result of any computation is more likely to show a loss smaller than actually exists, and in whatever way the matter be regarded, it is certain that with the imposed burden of extra help and extra draught animals, loss of time, wear and tear of wagon and harness, the drawing of light loads, and the depreciated value of farm lands, we are pursuing a short-sighted policy in permitting the present system to continue. Besides the actual loss, which a moment's reflection will serve to show, we are gaining nothing and saving nothing in that great department of agricultural industry to which the condition of the dirt road is of such marked importance.—Isaac

DRUNKENNESS

Or the Liquor Habit Positively Cured by administering Dr. Haines' Golden Specific.

It can be given in a cup of coffee or tea, or in food, without the knowledge of the patient. It is absolutely harmless, and will effect a permanent and speedy cure, whether the patient is a moderate drinker or an alcoholic wreck. It has been given in thousands of cases, and in every instance a perfect cure has followed. It never Fails. The system once impregnated with the Specific, it becomes an utter impossibility for the liquor appetite to exist.

SOME DOUBLE-HEADRES

Giving a Synopsis of Happenings in Toledo and Vicinity.

The Wind Blew at a Terrific Rate To-day,

Taking Everything Movable—Balser Brown's Case—Auchard Property Sold—Other Local Matters.

THE AUCHARD PROPERTY SOLD.

James Hodge Buys a Valuable Homestead.

James Hodge, of the firm of Paddock, Hodge & Co., has purchased the Clark Auchard homestead, at the corner of Madison and Twelfth streets, for $8,000. The lot is 50 by 100 feet. Mr. Hodge has not decided whether he will tear down the house and build or keep it for residence purposes as it is at present.

THE ALDERMEN

Hold a Very Short Session on Election Night.

The board of aldermen met last evening and passed a short schedule of business from the board of councilmen, including a resolution to confirm the contract with the B. F. Wade Co. for printing the annual reports of the city.

The motion to pass the street railway resolution over the veto of the mayor was lost.

JOSEPH FOURNIER

Gets Into an Altercation and Is Arrested.

As is generally the case at election time spirits are apt to run a little high and enthusiasm gets the better of judgment. Joseph Fournier was the victim of this condition of affairs last evening and got into an altercation at the rooms of the election board. He was arrested and arraigned in court this morning on the charge of assault and battery. The case was continued to April 8.

SENIOR WARDEN BALDWIN,

Of the Grand Lodge of Masons, Passes Away at His Home.

This morning Mr. Leander Burdick received notice of the death of W. F. Baldwin, grand senior warden of the grand lodge of Ohio F. & A. M., at his home at Mt. Vernon. Mr. Baldwin was proprietor and editor of the Mt. Vernon Republican and a gentleman highly respected. The funeral occurs Thursday at 2 p. m., and several from Toledo will attend.

BALSER BROWN'S CASE

Goes Over to the June Term of the United States Grand Jury.

The preliminary hearing of Balser Brown, charged with sending obscene matter through the mails, whose arrest was announced in the Bee yesterday, occurred before United States Commissioner Beckham. Brown lives at Kenton, and is charged with addressing the alleged illicit letters to a Miss Sarus. Brown pleaded not guilty, and was bound over to the June term of the United States court, with bail fixed at $500, which he gave and was released.

AH THERE, FRANK!

Mr. Monroe Has Gone to the Hot Springs for Rest.

Frank Monroe's smiling face will be missed about the B. F. Wade printing establishment, and in fact everywhere else, because he has departed for Hot Springs, ostensibly to rest, but everybody knows that the real reason is that since his name was so favorably mentioned in the Bee's bachelor directory, he has been so harrassed by the young ladies that it becomes necessary for him to seek fields anew, where he can do his courting quietly and not be sought after because of his known charms. It is reported, too, that he will not return alone, but this rumor cannot be traced to any reliable source.

THE ANNUAL INSPECTION

Of Toledo Commandery, Knights Templar, Friday Evening.

Recorder James D. Knights and Eminent Commander Henry W. Bigelow are out with special order No. 1, stating that the annual inspection of Toledo commandery, No. 7, Knights Templar, will occur on Friday evening, April 8. P. E. Sir W. F. Baldwin, representative of the Rt. Em. Grand Commander of the Jurisdiction of Ohio will be the guest upon this occasion. The inspection and work in the order of the temple will be followed by a banquet and a general good time. Sir knights will appear in full Templar uniform. The assembly will be sounded at 7:30.

SUCCESSFUL CONCERT

Given at Whitney & Currier's Music Hall.

One of the most enjoyable concerts of the season was given at Whitney & Currier's music hall last evening. A large and fashionable audience showed their appreciation of each number as it was rendered. The entire program was highly enjoyable and merited the complimentary comments expressed by those present. Prof. Hickok gave several numbers on that marvelous instrument, the Aeolian. Messrs. Perry and Gibsone gave some fine music on their mandolin and guitar. Miss May Russell, who possesses a beautiful soprano voice, sang "Madrigal," and most charming were the violin solos by May Harden-Colburn. Miss Huey McKinney is an elocutionist of much ability and was listened to with pleasure upon this occasion. Mr. D. G. Robertson never fails to please an audience. He possesses a fine tenor voice and his selections are always enjoyable.

WILL PRESERVE THE WATERS.

Michigan and Ohio Agree to Protect Ten Mile Creek.

Fish Warden Leflet is in receipt of a communication from State Warden Staunton, of Michigan, wherein the latter agrees to join in protecting the waters of Ten Mile creek from net fishermen.

The cases for violation of the fishing laws which have been pending in the local courts have been compromised, and as a result Ten Mile creek is free of nets, and will continue so. Major Leflet is to be congratulated.

GONE TO XENIA.

Miss Mabel Will Teach Sewing at the Soldiers' Orphans' Home.

Miss Mabel Wilson left this morning for Xenia to take the position of instructor in sewing and dressmaking at the Ohio Soldiers' and Sailors' Orphans' home, she having received notice of her appointment by General Young last night. Miss Wilson has had charge of the Monday night cooking class of the Manual Training school and this class will hereafter be taken by Miss Lilian Goldsmith. Miss Wilson was also supervisor and instructor of the Saturday sewing classes that have recently been started in the ward school buildings.

TWO BIG WINDOWS

Broken by the Strong Wind that Blew This Morning.

The wind blew a hurricane this morning. Pedestrians found it hard work to navigate. About 11 o'clock the wind was so strong that it blew in the large plate glass windows in the stores of the Central Chandelier company and Berdan & Co., breaking them to bits.

The west end of the roof of Quale's elevator was blown off and daylight let through, as if it was so much paper.

Everything in the way of signs, etc., that isn't tied down, has started on journeys, hats included.

Windows were also blown out at Stern & Bloch's.

GAS TRUSTEES MEET.

Important Resolution Adopted Affecting Consumers.

The gas trustees held a brief business session yesterday afternoon. The pay roll was reported and ordered paid. It is as follows:

Labor	$2,187
Trustees	520
Office	1,246
Total	$3,953

A resolution was introduced and passed whereby consumers will not be allowed to cancel contracts until the end of the year. Bills are payable in six installments annually. Five of these have already been paid, and some want to sneak out of paying the last installment now that the warm weather is here.

AN EMINENT GENTLEMAN

To Deliver Addresses in Toledo—Two Discourses Next Sunday.

Toledo is fortunate in securing the eminent services of Prof. G. Frederick Wright as an University Extension lecturer. And the scientific public are fortunate again in being able next Sunday morning to hear this expert in two fields discuss at the First Congregational church the topic: "The Present State of Adjustment Between Science and Religion." This subject was handled with great ability by the same gentleman some two weeks ago before the Pastors' union, of Boston, and his remarks have been widely published. The professor will be greeted by a large hearing of thoughtful people. Prof. G. Frederick Wright is a brother of the Rev. Prof. S. C. Wright, who spoke last Sunday in two churches in our city.

MR. BERDAN'S MANSION.

Contracts Let for the Work and There Will Be Some Hustling.

The contract for the elegant mansion of Mr. John Berdan, on Collingwood avenue, has been let to Messrs. Spicker & Winker, of this city. These gentlemen are becoming noted for their superior work turned out and are fast coming to the front among the leading contractors. J. L. Cress will do the copper, tin and slate work. The brick work has been let to E. H. Kuhlman. The cut stone will be attended to, as usual, by Mr. Neukom. Bedford blue stone will be used for the basement, and all the rest of stone will be Portage entry red stone. Messrs. E. O. Fallis & Co. are the architects. This will be one of the finest residences on that avenue, the cost exceeding $25,000.

STRIKE STILL ON

And the Paint Brushes Are Not in Use.

The situation in the painters' strike is practically unchanged. The union continues in session at Clark's hall, and today 13 more applications for membership have been received and are under advisement.

Two more employers have signed the scale, Frank C. Dukes, Washington street, and O. W. Sage, Bridge street. The strike committee now claim that five members of the Master Painters' association have agreed to pay the rate the union asks, a minimum wage of $2.50 for nine hours' work, and that they now await any proposition the association may have to offer.

A visit at the places of business of the principal employers shows that no work is being done, but President Parkhurst says he has not called a meeting of the association, nor been asked to do so. There is certainly a dead-lock on in the business of painting.

GONE TO COLUMBUS.

Large Delegation of Toledo Gentlemen to Talk Gas Bonds.

A large delegation of Toledo's prominent citizens left this morning over the Hocking Valley & Columbus in the interest of the bill to issue bonds to pay the gas trustees' indebtedness. The party is composed of gentlemen both for and against the measure, and a spirited fight will probably take place when they appear before the committee to-night. Among the delegation are Gas Trustees Backus and Jones, Trustees-elect Jacob Romeis, ex-Trustees Thomas Tracy and Clarence Brown, Manager Heston, John Kumler, Col. J. C. Bonner, A. E. Macomber, L. S. Baumgardner, T. S. Merrill, W. S. Brainard, E. W. Tollerton, H. C. Ellis, George M. Van Evera, J. W. Caldwell, Judge Austin and Elmer White.

TO KEEP IN COURT.

Attorneys Juggling to Have a Standing as to a Case.

A peculiar state of affairs developed in with the expiration of the January term of common pleas court, and the introduction of the April term.

The case of A. L. Smith against Alva Austin has been on hearing in Judge Lemmon's court for several days.

On Saturday evening the court was adjourned, and Monday being election day no court was held. The case had not been completed, and at 10 o'clock this morning the new term began.

Here was a quandry, a case half in one term and half in another, with records made in the January term and records in the April term. The question was how would the case ever be kept track of in the future? After a council of representing attorneys, it was agreed to transfer the records made in the case from the January term to the present term and treat it as a case of this term, and thus the difficulty was settled.

MATTERS MARINE.

General and Local News of Interest.

The steamer Bessie came in this morning with a mixed cargo from Marine City.

The tug Syracuse took the Commerce down to the dry dock yesterday for repairs.

The schooner Arthur is loading wheat at Quale's for Cleveland. This is the first wheat cargo.

The steamer John Pridgeon went out this morning in tow of the tug Roy, corn laden for Erie.

The tin roof on Quale's elevator was loosened by the wind this morning, and it is now wrapped around the chimney.

The barge Hanneford is loading coal at the Columbus dock for Port Huron at 25c. This is the first coal cargo of the season.

The steamers Fedora, Woheken and Nyanza are in after grain. The first and last are loading at No. 5 and the second at No. 4.

The current is so strong and the wind so fresh that it is dangerous to move vessels from their docks to-day, and all are tied up hard and fast.

LOCAL HAPPENINGS.

Annual meeting at the Old Ladies Home, Collingwood avenue, to-morrow afternoon beginning at 3 o'clock.

Mrs. McGregor, of 443 Hicks street, reported to the police that her house was entered last night and $4 was stolen.

The Sunshine circle repeated their entertainment at Westminster church, which proved another delightful affair.

There will be a meeting of the finance committee of the Day Nursery at 101 Oak street, Wednesday morning, April 6, at 10 o'clock.

The grand jury for the April term of common pleas court was impanelled this morning, and is now investigating the cases reported.

A number of Toledoans went to Columbus this morning to talk gas to the senate committee, with especial reference to the bond bill.

The Lucas County Horticultural society will hold its regular April meeting with Mr. Isaac Rideout, of East Toledo, on Wednesday, April 6. A good attendance is desired.

Gypsy fortune tellers are out in all their glory raking in silver coins from the many girls who want to know whether they are going to marry the light man or the dark man.

The John Henry reported arrested for being drunk is not the John Henry who resides with his mother on Indiana avenue and who is in the employ of Longman & Martinez.

Commissioner D. T. Bittles, G. C. Cornell and Geo. W. Walters, of Fulton county, were in joint session this morning with the commissioners of Lucas county, and settled up the construction of a bridge at the county line.

Nothing of importance was done at the very slimly attended meeting of the Building Trades council last evening. Whether it was because it was election night, or whether there was other cause, only a baker's dozen were present.

The merchants' National bank has just received a new burglar proof safe, which will be utilized as a cash strong box. It was manufactured by McNeel & Irving, of Hamilton, O., and has all the modern appliances to thwart the wily cracksman.

The meeting of the Toledo Suffrage association to-morrow afternoon should be well attended. A good deal of important business is to be transacted. All women interested in woman's advancement are cordially invited to attend. Meeting from 3 to 5:30, room 9 Fort Industry block.

On Sabbath afternoon at the Occidental hotel Rev. Dr. Fish, of St. John's M. E. church, joined in matrimony Miss Victoria Atherton, the niece of the proprietor, to Mr. Robert England, of Mt. Gilead, Ohio. It was a pleasant affair.

The report of the Union Savings bank as published in the Bee yesterday shows a truly wonderful growth. The rise and progress of what is comparatively a new bank is remarkable. During the three years of its existence it has had 4,000 depositors and the amount of deposits as shown in the published statement speaks for itself.

The Union social to be held at St. Paul's M. E. church Wednesday evening promises to be a more than usually interesting affair. The stilted program, which so often makes occasions of this kind dull and prosy, is to be done away with, and every person is expected to be free from the formalities which characterizes the programmed affair.

In 1850 "Brown's Bronchial Troches" were introduced, and their success as a cure for colds, coughs, asthma, and bronchitis has been unparalleled.

Messrs. T. Heffner and F. Ruffen have returned from Yellow Pine, Washington county, Alabama, and brought with them some specimens of very fine lumber from that point. They are interested in the Wilton Land and Lumber company, and a manufacturing company will be organized in Toledo. These specimens are being exhibited in Mr. S. G. Van Buren's office.

When gazing in your lover's eyes,
How soon his sense of rapture dies
If there's no sweetness in the breath;
If by your failing teeth be shown
That SOZODONT to you's unknown,
And that your mouth is suffering death.

Silver is having a whirl in the republican senate now and the organs are giving "the debased democracy" a rest on the subject.

The Columbian party has issued a manifesto for Cleveland. This is the first real backset to the Cleveland boom for a long time.

This is a momentous day for Chicago. With the aldermanic boodle business on hand, the city election has a deal of significance.

Ex-Speaker Reed and Roswell G. Horr ought to know better than to crowd into Rhode Island at such a time as this, especially when Grover Cleveland is already there.

Grover Cleveland is on record on the silver question, and it is also a matter of record that he has the courage of his convictions. His masterly speech in Rhode Island was confined almost entirely to a presentation of the necessity for tariff reform. Thus does the great democrat reiterate the great issue of the democracy.

A big factory building in Chicago collapsed one day last week. Fortunately it was unoccupied, having just been finished. It was intended that a heavy stock of metal should be put in the building, with hundreds of workmen to handle the stock. And yet the empty building could not stand alone, and in its fall found victims in adjoining buildings.

The St. Louis Globe-Democrat is a strong and straight republican sheet, but it will get read out of the party if it indulges in many spasms of honesty like this:

"There are some strong points to be urged in favor of the admission of New Mexico as a state, but she will probably have to stay out, nevertheless, until she can give an absolute guarantee against democratic majorities in her elections."

Even Editor Hatton of the Washington Post can see the handwriting on the wall when it is six hands high, so to speak. He was caught by a newspaper man in Chicago one day last week and frankly admitted "Iowa is about lost to the republican party. * * The next legislature will be democratic, and one of the first acts will be the election of a democratic United States senator to succeed Senator Wilson. * * It is to be feared the state will go democratic on a national issue."

Warner Miller is on his dignity, by latest advices, and will go ahead and build the Nicaragua canal with private capital. He is "tired of waiting for the United States government to guarantee the bonds." Very good, Mr. Miller. You have the same right any other American citizen has to engage in canal digging or any other legitimate business, and there is no more reason why the United States government should stock-job the business for you than for its doing the same in any other business for any other citizen.

The New York assembly has repealed the "speedway bill," which gave over a drive in Central Park, New York city, for the speeding of trotting horses. Just how the bill was passed, in the first place, no one seems to know, but all New York city sent up the cry for its repeal. Public sentiment can still do what it will in this country, when it is united, and it did not take long to make the assemblymen at Albany see New Yorkers still cared more to give the babies fresh air and a play ground than they cared for speeding fast horses.

The Ellis Island scandal has assumed too definite shape to be suppressed now. Criminal neglect resulting in scattering typhus fever through a great city; gross frauds upon the immigration laws; malfeasance and maladministration of public moneys in current expenses and in building—these are the charges Assistant Secretary Nettleton of the treasury department and Superintendent of Immigration Owen have successfully thrown at one another before a congressional investigating committee. Now it is said fears are entertained the party in power will be injured if the investigation is not dropped. The representatives of all the people at Washington should see to it that this is not done.

It is well for the Farmers' Alliance that it promptly disclaimed the "hold-your-wheat" circular, for farmers who did not sell at 100 cents because they believed 110 would be offered are now unloading at any price. May wheat at Chicago last week sold for 79 cents a bushel against 104 cents for the same week last year. It seems too much was expected from the shortage in Europe, and yet in one way there was no miscalculation. Multitudes in old-world countries lack the food from wheat products which in other years the European market has supplied. They do not buy our product, because they cannot. There were never so many men out of work in these countries as now. They go hungry for want of money to purchase food, and we sell our food product for what we can get because of their poverty. They have neither other products nor money to exchange for it. Yet there are tariff-primer economists still teaching and preaching that America is sufficient unto herself.

The bill before congress which invests the postmaster-general with power to decide what advertisements are "proper" in a newspaper should be killed as dead as Julius Caesar. The present incumbent of that office has on at least one occasion made himself a subject for mirth while posing as a censor of the press, and the opportunities for like folly should not be increased. The freedom of the press must be maintained, and this bill, however guiltless of such intent, directly menaces it. A reputable newspaper rejects voluntarily advertisements which could not "go through the mails." Other newspapers can be proceeded against under the provisions of existing laws. The contemplated enactment could be twisted to partisan uses. It is contrary to the principles on which our government safely rests. We are getting altogether too much legislation of this character. It is time to call a halt.

THE ELECTION IN TOLEDO.

For the first time in a number of years the common council of Toledo is democratic on joint ballot. In a party sense this means the election by that body of the city clerk, the city auditor, the city engineer, the harbor master, the infirmary director and many subordinate officers. And all of these offices will be filled by democrats. This should be understood in advance. Some very excellent and worthy democrats will occupy the offices and receive the salaries.

The democratic candidate for police clerk, Mr. George Leibius, is also elected by a handsome majority.

The rest of the offices were captured by the republicans, as usual.

What of the significance of this municipal election?

A stern rebuke to republican methods of recklessness, extravagance and corruption

This tells the story of the election, and tells it all.

Never before in the history of Toledo was a council so completely given over to bad and vicious and extravagant legislation as the one which went out of existence in disgrace with yesterday's election. Reform was loudly called for by republicans and democrats alike, and the people voted as they talked this time, and turned the majority over to the democratic party. Let it be very plainly stated right here that if the democrats do not do better than the republicans have done, they, too, will be turned out next election. The time is at hand when the people of Toledo are determined to have good and economical government, and public servants must take heed and govern themselves accordingly.

The office of police clerk has been a scandal of late under republican administration, as people know without repeating the story here. The election of the democratic candidate for this office further demonstrates the determination of the people of Toledo to have public servants who are honest and incorruptible. Mr. Leibius will prove an efficient and worthy officer.

It is to be regretted that Col. John H. Puck was defeated for police commissioner, but it is also a matter for congratulation to know that while the average republican majority on the city ticket was over 1,200, Mr. Puck was defeated by less than 700. This must be considered a rebuke to the secret political work for Doville. Sooner or later such un-American methods as were employed in his interest, will be driven from politics and society. Whatever will not stand the freest and fullest light of day is completely and wholly foreign to the politics of a republic.

Mr. Dorille's small majority shows that the leaven of good sense is working a wholesome reform.

Considered as a whole the democrats have the best of the election in Toledo. The election of democrats to the offices of clerk, auditor, engineer, infirmary director and harbor master, by a democratic council, will be a sorry result for republicans.

It is well. The responsibility of municipal management rests with the democrats. That the trust will be well guarded and honestly administered, goes without saying when the personnel of the boards of council and aldermen is considered. Therefore is there much cause for democratic rejoicing.

THE OFFICES.

There will be plenty of candidates for the offices within the gift of the council. The Bee has only this suggestion to make and advice to give: The council should elect democrats. Don't compromise on any other plan. A democratic clerk, a democratic auditor, a democratic engineer, a democratic harbor master, a democratic infirmary director. Do not entertain any other proposition.

It is announced that Representative Dalzall intends withdrawing from the senatorial race in Pennsylvania. Mr. Dalzall gives unexpected evidence of wisdom, for it is a wise man in politics who knows beforehand when he is beaten. Perhaps Mr. Dalzall was a fly on the wall of the White House when that reconciliation between Benjamin I and Matthew took place.

NORWALK NOTES.

Norwalk, O., April 5.—(Special)—W. R. Owen, for many years a timer in the A. B. Crane factory, has sold his property in Norwalk and will move his family to Ft. Wayne, Ind.

The Western Reserve Sugar Beet association, of this county, has elected the following officers: President, A. C. Williams, of Lynn; vice president, Hon. John A. Williamson, of Norwalk; secretary, Hon. F. R. Loomis, Norwalk; treasurer, L. S. Gibson, Norwalk.

WARM IN NEW YORK.

New York, April 5.—New Yorkers are experiencing unusually warm weather for this season of the year. Yesterday the thermometer reached 74, and to-day it is just as warm.

M'KINLEY COMMENT.

McKinley evidently didn't want to debate tariff with Campbell. He found him a regular buzz-saw last fall.—Indianapolis News.

Being beat for temporary chairman of the Ohio republican state convention still seems to rankle McKinley's henchmen.—New Orleans New Delta.

Gov. McKinley says America expects every man to do his duty in the approaching campaign. We are doing too much of McKinley's duty now.—Anaconda Standard.

Gov. McKinley dropped into the house of representatives, yesterday, just in time to hear what some of the members think of the law which bears his name.—Indianapolis News.

The democrats did indeed "get more than they asked for" when they challenged McKinley to debate with Campbell. They did not ask for a dodge and a flunk, though they rather expected it.—New York World.

It becomes tolerably apparent, doesn't it, that the democratic party is not going to have any useless and hopeless issue forced upon it while the McKinley tariff remains to burden and vex?—Keokuk Constitution-Democrat.

A thick coat of wool has appeared upon the head and body of an old negro down in Georgia. He was sheared twice last year, and the fleece was sold, bringing a good price. This thing never happened before McKinley's time.—Chicago Herald.

An American girl traveling abroad broke her engagement and sent back the engagement ring to her lover in America, who had to pay $46 duty upon it. Will Major McKinley kindly explain what infant industry was aided by this episode?—Providence Telegram.

McKinley's reference to Cleveland as "the pioneer of the cause of tariff reform" is complimentary in a way, yet it is in strict accord with the republican theory that the people are as children when considering the tariff reform question, though they proved themselves teachers of the McKinley class not so many sessions agone.—Philadelphia Record.

WELL, WE SMILE TOO

The Republican City Ticket Appears to be Elected,

But George Leibius Will Be the Police Clerk,

And the Democrats Have a Firm Grip on the Whole Shooting Match in the City Building.

The local election is over, and both parties have an opportunity to do a little crowing. The entire republican city ticket, with the exception of George W. Liebius, for police clerk, has been successful by majorities ranging from about 600 to 1,700. Mr. Liebius, democrat, comes up smiling with nearly 800 majority. The lucky gentlemen are:

Street Commissioner—Henry J. Bower.
Police Commissioner—Egbert Doville.
Police Clerk—George W. Leibius.
Natural Gas Trustees—Reynold Voit, Jacob Romeis.
Cemetery Trustee—Adam Balsmeyer.
Water Works Trustee—D. C. Shaw.
Justices of the Peace—J. Austin, jr., A. R. Seagrave, Sylvester Brown.
Constable—Stillman M. Carter.

So far as the city is concerned, the foregoing gives the republicans reason to state why they laugh.

But when it comes to the common council, then the democrats of Toledo are dead in it, and to a large extent.

The board of aldermen has a majority of one, or democrats 5, republicans 4, while the council is a tie. On joint ballot it is the one which tells the story. The present boards have a majority of three in favor of the republicans.

Police Clerk George W. Liebius.

That Leibius boy him made er hit,
Gee whiz, but 'ow 'e bested it
Ter t'other one, an' 'ow 'e skinned
Along like dust before ther wind.
There ain't no telling nohow jest
'Ow far he skinned afore the rest;
But yer kin figger up an' find
Ther t'other one wuz fur behind.

What are the plums at the disposal of this joint session of democrats? Well, here are a few:

City auditor, two clerks.
City clerk, one assistant.
City civil engineer, three assistants, draughtsmen, rod men, etc.
Infirmary superintendent.
Natural gas inspector and assistant.
Harbor master, with the bridge tenders, etc.

Perhaps some have gotten away, but they will likely be discovered.

The board of natural gas trustees remains unchanged politically, as does the board of education.

Already there are many gentlemen named for the honors.

Councilman Coleman is talked of for president of the board of councilmen, and Mr. Hartford for the aldermen.

For city clerk Judge Lorenz, ex-Deputy Sheriff John C. Phelan, and Judge MacGahan are mentioned, while for city auditor, Councilman Jim Pheatt, Homer Heed and Councilman Bay are discussed.

For city engineer, George Bodette and John R. Miller are announced as candidates, and there may be others.

Charley Murphy, of the Free Employment bureau, is named in connection with the infirmary directorship, and appears to have the field to himself.

Many democrats have suggested that it would be a graceful compliment to Louis Steuer to make him harbor master, and it is said Louis is not averse to the proposition.

After to-day, however, there will be matured consideration with regard to the interests of the party and people, and no doubt a satisfactory conclusion will be arrived at by the councilmen and their advisers.

Certain it is, however, that if the threats of the republican heelers made prior to election, relative to "what we are going to do," are carried into effect in other departments of the city government, the democrats in the city council hold the key to the situation, and it will not be out of place for them to remind those zealous gentlemen that what is sauce for the goose is plum duff also for the gander.

The following is a summary of the memberships of the various boards, with their political complexion, as affected by yesterday's election:

A FEW NOTES

On the Situation Locally, and Things in General.

Who is Coalwell, anyway?

"Am I an ole soldier? Well—"

The Fourth is all right in an emergency.

And Graham too. Bully for you, Mique.

'Squire Seagrave, the top of the morning to you.

Both sides have considerable over which to feel good.

The First is evidently in the republican camp to stay.

What's the matter with the Second? She's all right.

The prohibition vote turned the tables in the Ninth ward.

George Leibius appears to have run as well as he can sing.

Charley Durian had better have kept his $100. He ain't in it.

Some of the majorities were uncomfortably close on both sides.

Frank Coleman made it for the third time in the Fifth, and did it nicely.

The Third has some excellent hustlers, and they were right in line yesterday.

The tie in the board of councilmen will leave a nice fight open for the presidency.

Neither Tim Leroux nor Phil Hassenzahl will be president of the board of aldermen.

Councilman Theodore Schmidt.

The election did not make any change in the board of education or in the gas trustees.

Democrats, never mind talking about the city ticket. It's the city council that's interesting.

The democrats hold the fort. There should be no mistake about making changes.

The democrats of the Seventh ward are away on top. The result of organization is evident.

The Fourth and Second wards are reliably democratic when the occasion demands it.

Sylvester Lamb's fight in the Third ward was a great one, even though he was defeated.

The Eighth did nobly yesterday. It is not as republican as formerly, and will not be hereafter.

The power of the young men in politics is shown by the triumphant election of George W. Leibius.

The city officials under the appointment of the council have until May 1 before their terms expire.

Theodore Schmitt appeared to be in it, to some extent, notwithstanding the bitter attacks made upon him.

Best, the independent republican candidate for council in the Second ward, did not make much of a showing.

The street commissioner's force will now be reduced to its normal size, and the streets will gather up mud again.

Let's see. What were the people of the Eighth ward to do for Louis Walker, the workingman? Oh, yes, elect him.

The election of George W. Leibius as police clerk will knock out the Coalwell-Tanner combination in bad shape.

Herman Baumbach will not be infirmary director, to succeed Bill Kirkby. A democrat will look after the duties.

Some long-needed changes in the municipal government will take place, now that the democrats are in the majority in the council.

Three democratic councilmen from the republican Seventh ward, and all good, solid, substantial men. Three cheers for the Seventh.

East Side Brown is saved from making a canvass against City Engineer Wickenden. The election relieved him from the anxiety.

Nor will Councilman Morganthaler be in the new deal. And he wanted to be president, too. Such is the disappointment of life.

A great crowd congregated at the board of election rooms last night to hear the result, and they did not leave until the last precinct was in.

If Dr. Hathaway had only gotten three more votes—well, Dr. Scott would not be the member of the board of education from the Sixth.

Bill Kirkby can look on with some degree of pleasure, while he retires to fill another fat berth, and leaves his present office to a democrat.

Even though Bay was defeated for council in the Ninth, he will have the satisfaction of leaving that board with a clean and enviable record.

Sam Kohn was evidently in the race for the school board in the Second ward, as the Bee said he would be. Sam will make a splendid member.

Now we'll listen to the great wrong about to be perpetrated on the people on account of the democratic council electing a democratic corps of city officials.

Councilman Walker made a great fight in the Eighth ward against immense opposition, and is to be congratulated on his victory even if the majority was small.

Some democrats are doing a little hustling to-day getting acquainted with the new councilmen, and incidentally mentioning what office they would like to fill under the new deal.

Those pictures and sketches of George Roulet and Councilman Albrecht were too much for Seventh ward voters. The fact is, Albrecht got too many improvements, at out every one of which left a sore.

While the republicans were piling up votes for the city ticket, the democrats were raking off the city councilmen, and as a result several gentlemen who have been living on the fat of the land will look for a new job.

Phil Hassenzahl was holding a great jubilation last night over his election to the aldermanic board by over 300, but when he found that he was on the minority side his hopes for the presidency were suddenly dropped.

That Ninth ward has a way of its own to do things. Two years ago Mr. Graham was elected alderman by one majority, and this time Mr. Wolfman gets there by two votes. Not as deep as a well or as wide as a barn door, but it'll do.

The usual clique of republican politicians were at the board of election rooms last evening, and as the precincts that decided the complexion of the council were the last to come in they were kept on the ragged edge until 2 o'clock this morning.

The Secret

Of the greatness of the Royal Baking Powder lies in the conscientious care employed in its manufacture; in the unvarying strength and purity of its ingredients; in the accuracy with which they are combined; in its assured freedom from every and all improper or detrimental substances.

The Secret of its marvelous success (its sale being greater than that of all other cream of tartar baking powders combined) lies in the wholesome, delicious food its use insures; in its uniform, perfect, never failing work, and in its satisfactory use for a quarter of a century which has won for it the implicit confidence of the public.

Return to the grocer all substitutes sent you for Royal Baking Powder. There is no substitute for ROYAL.

"I AM NOT WELL ENOUGH TO WORK."

This is a daily event in mills, shops, factories, etc. It is the point where **Nature can endure no more,** and demands a **rest.** Then the poor sufferer, worn with toil, and broken in health, stands aside to make room for another. "Quick consumption" they called it.

To this class of women and girls we proffer both sympathy and aid. When those distressing weaknesses and derangements assail you, **remember that there is a Remedy** for all of them. We have on record thousands of such cases, that have been restored to vigorous health and lives of usefulness.

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

Is the only **Positive Cure and Legitimate Remedy** for the peculiar weaknesses and ailments of women.

It cures the worst forms of Female Complaints, that Bearing-down Feeling, Weak Back, Falling and Displacement of the Womb, Inflammation, Ovarian Troubles, and all Organic Diseases of the Uterus or Womb, and is invaluable to the Change of Life. Dissolves and expels Tumors from the Uterus at an early stage, and checks any tendency to Cancerous Humor. Subdues Faintness, Excitability, Nervous Prostration, Exhaustion, and strengthens and tones the Stomach. Cures Headache, General Debility, Indigestion, etc., and invigorates the whole system. For the cure of Kidney Complaints of either sex, **the Compound has no rival.**

All Druggists sell it as a **standard article,** or sent by mail, in form of Pills or Lozenges, on receipt of **$1.00.** LYDIA E. PINKHAM MED. CO., LYNN, MASS

An illustrated book, entitled "Guide to Health and Etiquette," by Lydia E. Pinkham, is of great value to ladies. We will present a copy to any one addressing us with two 2-cent stamps.

"All she lacks of beauty is a little plumpness."

This is a frequent thought, and a wholesome one.

All of a baby's beauty is due to fat, and nearly all of a woman's — we know it as curves and dimples.

What plumpness has to do with health is told in a little book on CAREFUL LIVING; sent free.

Would you rather be healthy or beautiful? "Both" is the proper answer.

THE BABY'S BED.

"The baby must have a cradle,"
The fair young mother said;
"He must have a place of his very own
To nestle his precious head;
He shall have a downy pillow,
And a coverlet soft and white,
And the lattice shall be woven through
With ribbons dainty and bright."

"Oh, yes; he must have a cradle!"
The proud young father said,
As he smoothed with tremulous fingers
The pretty, curl-crowned head;
"He will take a world of comfort,
As he slowly, sleepingly swings,
Half-waking and half-dreaming,
While his mother rocks him and sings."

So planned the fond young parents,
As they watched their darling's grace—
Yet they did not buy a cradle
For the baby's resting place;
But they bought a tiny casket,
As white as the drifted snow,
And their hearts were well nigh broken
With a sudden weight of woe.

And they laid the beautiful baby
In a bed of his very own,
And strewed it with smilax and lilies,
And roses white half blown;
And his pillow was soft and downy,
The blossoms covered his breast,
And he slept and needed no rocking
To deepen his quiet rest.

The various life insurance companies in the United States annually disburse $85,000,000 on claims.

Quill toothpicks came first of all from France. The largest factory in the world is near Paris, where there an annual product of 20,000,000 quills.

The French Congo country, many will be surprised to learn, is five times the size of France, and is supposed to contain a population amounting to 8,000,000 souls.

The jurors in a Detroit Court recently ranged from 6 cents to $60,000 in deciding the amount of damages in a libel suit and finally compromised on a verdict of $11,000.

General Serrellis said to have invented an electrical instrument for striking a ship when fourteen miles distant from New York abow equal in force to 50,000 foot tons.

A committee appointed by Secretary Noble to look into the census bureau, reports that it will requre $2,000,000 more to complete the work as undertaken. The committee recommends the discontinuance of some unimportant divisions.

Andrew Carneigie rates himself as worth from $30,000,000 to $35,000,000. He says he will spend every cent of his money before he dies. He is an agnostic, and declares he will never give a penny to a church.

A favorite food fish in Japan is the tai. It contains two bones, which the Japanese call, from their shape, the hoe and sickle. When eating the fish a mother will tell her children, "Now wait until I get you the hoe and sickle," and the children use them as playthings.

Poisoning by mussels is a well-known fact. Such poisoning appears in chronic form in Terra del Fuego mussels being abundant on the shores and other kinds of food rare, so that the natives eat large quantities of the former daily, both of bad and of good quality.

The British Museum has secured from Thibet a copy of the Jangyn, a monster cyclopedia of Thibetan buddhism. It comprises 225 volumes, each of which is 2 feet long and 6 inches thick. There are, it is supposed, only two other copies of the work outside of Thibet.

The microscope has revealed many wonders, among others that the common caterpillar has 4,000 muscles in his body; that the drone bee's eyes each contain 1,300 mirrors, and that the large, prominent eyes of the brilliant dragon flies are each furnished with 28,000 polished lenses.

The Austrian method of execution seems to be but a slight improvement on electrocution. The Austrians swing a halter over the neck of a murderer and string him up, while the executioner-in-chief, wearing white kid gloves, calmly beholds the victim wriggle, and two ponderous assistants pull him down by the legs.

The first consignment of camel skins for commercial purposes ever brought to this country reached New York on the last voyage of the steamer Normandie. It consisted of five bales, thirteen skins in a bale, shipped from Aden to a firm of morocco manufacturersturers in "The Swamp." The shipment is an experiment.

It has always been generally believed that snow keeps the ground warm, but no very accurate data on the subject have hitherto been forthcoming. Accordingly it is interesting to learn, from observations recently made at Katherinenberg, that at a depth of fourteen inches the soil, when covered with two feet of snow, was ten degrees warmer than at the surface.

The latest application of electricity is to the curling of forehead fringes. The idea is American, of course, and its realization is anxiously looked forward to by young women of fashion, who hope to find in electricity a means of producing at a moment's notice those infantine rings and and hyacinthine locks which now take twenty minutes at least to bring to perfection.

The Adelsberg cave, with its recently discovered side caverns, has lately been carefully surveyed, in accordance with the instructions of the Austrian minister of agriculture. Count Falkenhayne. In the course of the operations some beautiful parts of the cave, which could formerly be reached only with the greatest difficulty, were made easy accessible.

The slaughter of seals on the eastern coast of North America goes on without any power to protect them. The sealer Labrador, which returned to St. Johns, N. F., on Wednesday, had 18,500 skins, and reported that the Ranger has 27,000 skins, the Diana 28,000, the Iceland 23,000, the Wolf 25,000, the Leopard 15,000, the Eagle 22,000, the Kyle 5,000, the Esquimaux 25,000, the Hope 10,000 and the Neptune 3,000.

Twenty years ago New England factories produced 80 per cent of the boots and shoes made in this country. The New England product has largely increased, yet it is now but 55 per cent of the total value, the industry having been established in other parts of the country. Since 1880 importations of hides and skins have increased about 45 per cent. During the same period exports of manufactures of leather have increased more than 125 per cent.

In Singapore the bridegroom must secure his bride in a race, and this custom of bride-chasing is quite common throughout southern and eastern Asia. In Singapore a circular course is marked out, half of which is traversed by the maiden—encumbered only with a waistband—ere the word is given for the would-be possessor to go in pursuit, in the hope of overtaking her before she has thrice compassed the circle; that achieved, she has no choice but to take the victor for her lord.

Honey could be immensely improved by the planting of the flowers known to yield a fine flavored nector. Everyone knows the difference in the quality of the comb contents in different regions. The Narbonne honey obtains its fine flavor by being harvested chiefly from labiate plants, such as rosemary, etc., and though it appears that the Maltese honey does not, as often stated, owe its fine aroma to orange blossoms, the latter undeniably perfumes the Greek honey.

Rain-maker Melbourne finds the Mexicans a hard set to deal with. He had contracted to produce not less than a quarter of an inch of rain in the state of Senora by the 7th of March. His operations were delayed until the 2nd inst, and when the clouds began to gather the contracting committee ordered him to desist, as they said that a natural rain was coming up. There was a rainfall of 1 1-4 inches between the 2nd and the 6th inst., but the Mexicans rule out Melbourne and ascribe it to natural processes.

The reporter on the Morning Advertiser of New York, Frederick J. Hamilton, who accompanied Dr. Cyrus Edson on his rounds among the typhus patients and contracted the fever, has died. He exonerated his employers from all blame in the matter, stating that it was his zeal in his profession that caused him to take the risk. A few years ago, in order to investigate the Pasteur treatment, he was inoculated with the rabies germ and spent two months under treatment in the hospital, almost dying with hydrophobia.

TAMPERING WITH FATE.

The scene was in a drawing room in West Brompton, and a strange idea came into her mind. She was romantic, and all kinds of strange ideas flitted in and out of her pretty little silly head.

Stamping as hard as she could an elegant patent-leather boot on the carpet; throwing back her shoulder, her dress tightened over her bosom, which was heaving like the Mediterranean, and, pointing to the Japanese cabinet in the corner of the room with a commanding gesture, she said in the peremptory tone of one who will not brook contradiction, whom nothing can turn fom a set purpose:

"Open one of those three drawers."

The young man precipitated himself towards the Japanese cabinet.

"Don't be in such a hurry, pray. First hear what I have to say."

He stopped suddenly, as if she had told him that the drawers were charged with dynamite, ready to explode as soon as the cabinet was touched.

"Open one of those drawers; and be careful how you choose, for in each one I have placed an answer to the favor you have been begging and praying for so long.

"I have made up my mind to let this speak for me, and if you put your hand on the paper on which 'Yes' is written, then I must yield to you. Then I am yours.

"But if the paper in the drawer says 'No,' you understand 'No' it must be."

"I am sure it will be against me," said her Bassanio, who was not so poetical as he was an ardent lover. "Oh, I say, it is not fair, you know; it's really too cruel of you, 'pon my soul it is."

"You must take your chance," she replied tragically. "At any rate, I shall have this consolation—if you choose the answer you want, it will be fate that gives me to you. Tell me, do you believe in fate?"

"I don't know," he answered, hesitating between the three drawers.

He paused to look into her face for guidance, but he found none there; so, closing his eyes and trusting to Providence, he elected for the middle drawer.

He opened it, and took out a tiny roll of scented pink paper and handed it to her.

"Well, what's my sentence?"

"Read it yourself," and she held up the rose-leaf of paper, upon which was written one word—

Yes.

So she was his.

As if to take immediate possession, he put his arms about her and pressed her to him.

She did not resist. She had given her word, and she resigned herself to her fate.

With her lips clinging to his, the young man was not entirely happy; for after a few moments of supreme ecstasy he became suddenly cool.

"What's the matter, darling?" she asked, noting the change, and looking amorously into his eyes. "Are you not happy now?"

"Not quite."

"Not quite! Am I not yours?"

"Yes; but I owe you, don't you see, to chance. I won you by chance. You did not come to me of your own free will, did you now?" and the poor fellow looked so ridiculously disconsolate that she could not help laughing in his face.

"Don't be so silly," she said, tightening her ams about his neck and standing on the tips of her toes to reach his lips, for he held his head high in the air, "if I must tell you, you old darling, I put the same answer in every one of the drawers!"—Boston Globe.

ABOUT PEOPLE.

Senator Gorman was a good base ball player and a steady right field who could always be depended upon.

Mr. Claus Spreckels, having sold out to the sugar trust, will leave Philadelphia for San Francisco to remain.

Ex-Gov. Newton Booth, of California, is slowly dying at his home in Sacramento of the same disease which ended the life Gen. Grant.

A recent arrival in San Francisco is Bishop Nicolas, of the Greek church in America. He was formerly bishop of Tiflis, in Asia Minor.

Senator Allison, of Iowa, is one of those solid-looking, self-poised and dignified gentlemen who could never be mistaken for a reformed rounder or charged with having anything of the vulgar politician about him.

Prince Victor Emanuel, heir to the Italian crown, is one of the handsomest and most accomplished men of his station in life. Although nearly 30 years of age and widely traveled he is yet unmarried.

Frederick Schwatka, the traveler, once experienced a temperature of 71 degrees below zero in the arctic regions near Burk's Great Fish river. It is said to be the coldest ever endured by civilized man.

The Prince and Princess of Wales are known as the Earl and Countess of Chester when they travel on the continent. It was as the Earl of Chester that the prince made his celebrated American tour.

The duke of Edinburg is one of the richest members of the royal family and can make a sovereign go much farther than his venerable mother has been able to do. It is said of him that he never parts with a shilling which he couldn't recognize if he came across it years afterward.

TELL THESE TO YOUR WIFE.

The speculator went to church last Sunday and when the contribution box came around he dropped in a hundred dollar bill.

"Jerusalem!" whispered his partner, "what did you do that for?"

"That's all right," was the assuring response, "I'm putting that much up on futures."—Detroit Free Press.

TIMELY TOPICS.

A reviewer writing in the Epoch of Humphrey's new edition of the "Antigone" of Sophocles criticises the fact that there are 200 pages of etymological and philological notes to the few pages of text, and complains that there is too much of the dry-as-dust method in editing the classics nowadays. "Fancy a play of Shakespeare edited on this plan," says the critic. It is true that such an edition would not be a popular one, but a student who would carefully read it and thereby get a scholar's insight into the great fund of allusion and analogue contained in one of Shakespeare's plays would have a far more appreciative knowledge of his author than those people have—and there are many of them—who read through all the dramas in a hasty and unpainstaking way. The well-known German thoroughness that led a professor to devote a lifetime to the consideration of a Greek particle is bad, of course, but between that extreme and the American extreme of skimming everything there is a golden mean of intelligent study.

The late Baron de Loe, the diplomat, was renowned as much for the beauty of his wife as for anything else. The baroness was a French woman of surpassing good looks. When a young girl she made a conquest of Bismarck at the Casino of Biarritz. Bismarck, to have an excuse for getting into conversation with her aunt, who accompanied her, stumbled against that lady, and then, after the proper apologies and a brief chat with the aunt, asked the beautiful niece to waltz, and devoted himself to her all the time he was in France. The attentions were entirely platonic and were supposed to be a feather in the young lady's cap. Little strategems of this sort, though seemingly rude, appear to be in vogue on the continent to bring about acquaintanceship. The late President Grevy, so the story went, once purposely tore Queen Isabella's dress at an Elysee ball so that a young newspaper writer in whom he was interested might step up with a package of pins, as had previously been arranged, and secure an interview while repairing the rent. The little device in this case worked like a charm, and Grevy afterwards narrated the incident with great humor. It seems to show, however, that Parisian manners are as light and airy as Parisian morals are commonly held to be.

AMERICAN LEADERSHIP.

The United States still continues in the lead in iron and steel production. Statistics just received show that Great Britain produced 7,228,496 gross tons of pig iron in 1891, 1,642,005 tons of Bessemer steel ingots, 662,676 tons of steel rails, and 1,514,538 tons of open-hearth steel. In the same year the United States produced 8,279,870 tons of pig iron and 1,219,874 tons of Bessemer steel rails. The statistics of production of ingot and open-hearth steel for 1891 are not yet published for this country.

WHAT IS THIS?

An Overdose of Morphine—And Why

A lady was found dead upon her bed. Investigation showed that she had been a terrible sufferer from nervous weakness and prostration, probably aggravated by Spring Debility which so weakens us all at this season of the year. For months she had complained of being tired and nervous, her stomach and bowels troubled her, there was palpitation, headache, malaria, strange, faint feelings, and for the last week she had felt discouraged, depressed in mind, miserable. In a fit of desperation she took her own life by an overdose of morphine.

A peculiar after-effect of the Grip is that, owing to its extreme weakening effects upon the nerves, it makes people feel blue, depressed and discouraged and without their former joyous feelings.

It is strange that such foolish acts as suicides can take place when at the present day it is well known that these weakening nervous diseases can be easily cured by using that great discovery for the nerves, Dr. Greene's Nervura. Its effects are sure in all such cases, and it is purely vegetable and perfectly harmless. Druggists, $1.

"I employed 23 doctors for my wife. Many pronounced her incurable, some advised placing her in an insane asylum, while others did her no good. She had poor blood, was weak, nervous, debilitated and half crazy. She had female weakness, and her kidneys were very bad. Dr. Greene's Nervura has completely cured her. SHE THANKS GOD THAT I BOUGHT DR. GREENE'S NERVURA. N. B. KING,

Danvers, Mass."

Dr. Greene, the successful specialist, in curing all forms of nervous and chronic diseases, 35 W. 14th Street, New York, can be consulted free, personally or by letter. "GRIP WRECKS."

Sad Reminders of the Late Epidemic.

Serious After-Effect of the Disease Common.

What the Best Physicians Use and Recommend.

How Thousands Have Restored Shattered Health.

Nature's Own Remedy Discovered by Prof. Phelps, of Dartmouth.

A dispatch from Washington, yesterday, says: In an official conference concerning startling fatality in the departments and elsewhere, a prominent army surgeon to-day said:

"The Annals of Hygiene seems to have solved the case, for in a recent number its editor states:

"'How many cases of incurable organic disease have had their origin in the grippe, of course it is impossible to ascertain statistically, but that many persons are invalided or dead whose departure from health dates from an attack of the grippe, the experience of our readers will, we are sure, bear ample proof.'"

The surgeon also read this extract from a communication by Dr. Brockett, published in the Medical World:

"'Autopsies held on subjects known to have had la grippe and supposed to have fully recovered, who died suddenly, show structural changes in the medulla and spinal cord.

"'Our state and private insane asylums are rapidly filling up from this source. The country is strewn with mental "grip wrecks," which will remain with us as a sad reminder after the disease has taken its final departure.'"

Continuing, the surgeon said: "Much experimenting has been done to remedy this peculiar condition of the system, and carefully prepared statistics from reports made by physicians in different parts of the country show that the discovery of Prof. Phelps, of Dartmouth college, known as Paine's celery compound, is the most successful in treating these shattered wrecks.

"Dr. W. E. Anthony, of Providence, reports: 'The patients where I have used Paine's celery compound expressed themselves much pleased with the general tonic effect experienced from its use. As a tonic and restorative it seems to meet the indications in cases of debility, which as a rule are the sequel of la grippe.'

"C. E. Wells, M. D., of Sag Harbor, N. Y., reports that he used Paine's celery compound in cases of nervous prostration following la grippe with most satisfactory result.

"The famous Boston surgeon, Dr. A. W. K. Newton, states very emphatically that this compound is the most reliable tonic and strength-giver he has found for this peculiar and dangerous condition of the system."

In conclusion, the surgeon said: "Paine's celery compound is not a patent medicine. It is a scientific discovery whose formula is known to most physicians. It must not be confounded with the ordinary nervines, bitters and sarsaparillas, for it is as much superior to them in formula and results as the diamond is superior to cheap glass. It purifies the blood, strengthens the nerves, and is nature's food for the brain—such a medicine is an absolute necessity in cases of grip-wreck."

A physician, whose practice is next to the largest in Washington, said:

"I find this tale a very common one among my patients: 'Oh! doctor, the grip left me in terrible state. I have a continual buzzing in my ears and they seem to be stopped up; my head aches nearly all the time; if I take a little cold my throat and chest are choked up; at times it seems as though my heart would jump into my throat; I can't sleep; I am so nervous that I tremble nearly all the time; I feel tired and have no ambition to work.'"

The physician further said: "I tell such people to buy half a dozen bottles of Paine's celery compound, which seems to be nature's remedy for this serious trouble. I know of nothing elses that will help them, and that amount is generally enough to drive from the system the poison germs left by la grippe."

ANOTHER SUICIDE CLUB

Startling Discovery Made in Roumania.

Five Cadets Have Taken Their Lives.

The Authorities Will Break Up the Society by Prosecuting Its Members for Murder.

Bucharest, April 5.—The authorities are much stirred up over the discovery of a club formed among the cadets of the Roumanian military school at Krajeva, the members of which are pledged to commit suicide as soon as their names should be drawn.

The cadets belong to the upper class in Roumania and the members of this club were all the sons of prominent families.

The club is said to have originated in one of the cadets having read some time ago of the existence of such a club in America. He called attention of his associates to the matter and at first in jest they entered into a compact of a similar kind.

The survivors have confessed that they were not really in earnest when they began and were greatly shocked when the first whose name was drawn, drew a pistol and shot himself dead.

The others then felt in honor bound to follow his example whenever their names came out in the fatal lottery.

Others were admitted to the club until it numbered 19 members. When five cadets in succession had taken their own lives, all in the same manner, by shooting, and all without apparent notice, the authorities became alarmed.

They were likewise urged to a strenuous investigation by Gen. Lahovari, the minister of war, to whom the parents of the dead youths made earnest complaints. The result was the discovery of the suicide club.

The surviving members of the club have been placed in rigid confinement and will be tried on the charge of murder. The Roumanian military system permits and even requires the fighting of duels under certain circumstances, but in the present case the members of the club are to be prosecuted as murderers in having deliberately aided and abetted unjustifiable suicide, and it is probable that the ringleaders at least may be convicted and shot according to military law.

COLLAR FACTORY ON FIRE

Quinn's Factory Almost Completely Destroyed.

Business Will Be Suspended for Some Time—Twenty Men Thrown Out of Employment.

At 6:45 this morning an alarm of fire was turned in from box 245, on the corner of Ottawa and Lafayette streets.

It was meal hour at the engine houses, and only half of the force was on hand to respond to the call, which was promptly made by the few on duty.

On arriving at the locality it was discovered that the Quinn collar factory on Lafayette street was on fire, and that the flames were rapidly taking possession of the institution.

Realizing the odds against him with so small a force, Chief Wall at once turned in a general alarm. The result was the flames were soon checked and speedily extinguished.

The fire was first discovered in the third floor, where the straw used for packing collars is kept. The flames quickly spread to the work-room below, where a large stock of supplies and made-up goods was stored.

The building was completely flooded, and what the fire left in the way of stock the water destroyed.

The plant is owned by J. E. Quinn, and according to his statement the last invoice placed the stock and plant at $20,000.

The machinery escaped damage and the loss is confined to the destruction of the stock on hand, and the necessary delay of business at this season of the year, which is the harvest time in the collar trade.

The plant has a capacity of about 12 dozen collars per day, and gives employment to about 20 men.

The stock is covered by $15,000 insurance placed with the following companies:

Kountz Agency.

Royal, Liverpool	$5,000
Alliance, New York	1,000
Fire Association, Philadelphia	2,500

Dodge Agency.

Lancashire, England	$2,500

Hodge Agency.

American, Philadelphia	$2,500

Russell Agency.

Springfield, Mass.	$1,500
Total	$15,000

The building is owned by Senator Proctor, of Vermont, and was insured in the Dodge agency as follows:

Home, N. Y.	$3,000
Niagara	2,000
Liberty	1,000
Total	$6,000

The loss is estimated at $7,500 on the contents and $1,200 on the building.

ALMOST A STAMPEDE WAS

Created at the People's by a Most Trivial Cause.

A Window Blows In, a Crash Followed, Somebody Yelled Fired, and a Rush for the Aisles Resulted.

A theater stampede was narrowly averted at the People's last evening, and all through the disorder and general disturbance that prevails the season through in the galleries.

The Limited Mail occupies the boards, and the theater was crowded to the doors.

During the first act the wind blew in an outside window in the third gallery. No particular attention was paid to this, as there is always more or less disturbance in this quarter during a performance, and all would have been well had not the gang in the galleries began to yell "sit down."

This created considerable excitement all over the house, and women and children began to prepare to leave the building. Presently some fool yelled "fire," and the excitement increased tenfold. Women screamed, children cried and the audience below was on its feet ready for a grand rush to the aisles and streets, and some of the more excited ones rushed out.

The cry of "sit down, there is no danger," now became general, and with some it had a quieting effect, while with others their fears were only increased.

Of course the performance could not go on, and when the excitement was at its height Mr. B. H. Pierce, a member of the company who was on at the time, stepped to the front and very calmly stated that there was no danger and requested that all would be seated, that the performance might proceed. Manager Brady then announced the cause of the excitement, which served to restore order.

A Syracuse (N. Y.) farmer, while crossing South Bay, Lake Oneida, a day or two ago, was chased by a pack of hungry foxes, and narrowly escaped death.

A movement is on foot to restore and reserve Andrew Jackson's old home in Tennessee, "The Hermitage." It is intended to beautify the old mansion and turn it into a national museum.

The little daughter of W. K. Vanderbilt is credited with the ability to speak Chinese.

SMILES.

While the crowd was watching the procession a man who was trying to telescope his neck upwards sufficiently to enable him to see over the heads in front of him accidentally stepped on the toes of a man behind him.

'If you do that again," howled the sufferer, "I'll punch yer jaw!"

"Do what again?"

"Step on my foot!"

"Did I step on your foot?"

"You did."

"I beg your pardon."

"That's all right, but don't you do it again."

"Why not?"

"I'll punch yer jaw!"

"Who are you, anyhow?"

"That's all right."

"I want to know who's going to punch my jaw."

"My name's Hawkins, sir."

"Occupation, Mr. Hawkins?"

"I'm a butcher, if it's any of your business."

"Make sausages, do you?"

"Sometimes."

"Then do your wurst."

And he turned his back on Mr. Hawkins and began telescoping his neck upward again.—Chicago Tribune.

"Do you think any girl ever proposes in leap year, as they say, Jenny?" he asked.

"Not unless she is obliged to," answered the maiden.

"H'm! I hadn't thought of that," he said, after a pause.

"But, George," she said, laying her hand affectionately upon his arm and looking into his eyes, "you, I am sure, will never force me to that humiliation."

"No—er—that is to say—of course not I—"

The ice was broken, and three minutes later George was Jennie's accepted.—New York Press.

A drummer from a cloth-importing house • Worth street tried to sell some goods to a Chatham street dealer one day last week, and he argued that a line of marked down suitings would serve the customers of the dealer just as well as the latest spring styles. The old man examined the samples, listening to the arguments, and then said, emphatically, "Dey vill not do fer me.'

"Why not?" urged the salesman. "Your customers would never know the difference.'

"Dey vould; dey vould. My gustomers vas all birds-eggs, man.'

"What?" gasped the astonished drummer.

"I say dey vos birds-eggs."

The visitor hesitated. The answer to such an assertion was difficult to frame.

"Isaac, Isaac," interrupted the old man's partner, impatiently, "vhen vill you learn to talk English straidt? Our customers vas not birds-eggs, but all eggs-birds, man."—New York Tribune

Pusselwaite was the funny man on the Bugle and he wasn't to blame for that exactly because he supported his family at it, but he had a way of listening for points when other people were talking that was really reprehensible. One day two men were talking in the hall and Pusselwaite caught on and soon had his ear canted over their way.

"I tell you what it is," said one, "it's no laughing matter."

"What isn't?" asked the other

"That last batch of Pusselwaite's jokes," growled the first speaker, and the listener stuck a paper wad in his ear and resumed his labors.—Detroit Free Press.

"I can tell you something amusing about a case of ambition o'ervaulting itself," said Madame S., who has just returned from a tour abroad. "We were traveling in Germany and wanted the compartment to ourselves. At a station where we stopped there was a party with a crying baby ready to to come aboard and I told our youngest girl, who is a great mimic, that if she would roll herself up in a rug and cry they would probably pass on and leave us alone."

'And did it work?"

"You shall see. Sadie rolled up head and all, and when they looked in she screamed at the top of her voice exactly like a peevish infant. The mother and father thrust their heads in while their infant roared also. It was a scene fit for bedlam. And to complete it the father, who was an Englishman, said:

"'Ere you h'are, Mary. There's a another howler in there, and they won't mind 'aving us,' and in they got, the whole family of them, and our cat was out of the bag.—Detroit Free Press.

English markets as reported herein are dull for wheat without change in price. Corn is cheaper.

Markets To-Day.

Chicago markets are closed to-day, but the limited curb trading in wheat shows 1-4c advance on the May future. There is very little news coming over the wires, the decrease on ocean passage being the most noteworthy event. We do not hear of the closing of foreign markets, but do not feel unhappy about that. New York has fluctuated within narrow limits, and at the close May wheat was 1-4c and July 1-8c better.

Corn has been stronger, and in New York May closes 1-2c and July 1-2c up.

May oats 1-8c up.

In Toledo we have had a strong market, but only limited trading. There was but little to base changes upon, save what we have noticed above, but prices advanced 1c on the May future, and were about steady on others. May commenced at 88 [illegible] and advanced and closed at 89 1-4. At close 89 1-4 was bid for round lots July sold at 83 to 83 1-4 and closed steady at 83. August sold and closed at 82. The point in our market is the advance in May and cash wheat. Cash wheat, No. 2 soft sold early in a small way at 88 1-2 and at close 89 1-4 was the market, an advance of 1c; No. 3 soft at 86 1-2. Wheat and rye at 84.

Corn, No. 2, 40c; No. 3 at 39c; No. 4 at 37c. No. 2 yellow at 40c. Clover seed, was 10c better on light trading; prime at $6 60; No. 2 at $6 25 to $6 30.

New York, April 5.—Money 1 1-2@2 per cent. Exchange quiet; posted rates, 487 1-2@489; actual rates, 486 1-2@486 3-4 for 60 days and 488@488 1-4 for demand.

Governments quiet; currency 6s, 109 bid; 4s coupon 115 1-2 bid; extended 2s registered, 100 bid.

The stock market was fairly active during the two hours to noon to-day, 101,500 shares changing hands. The announcement of the veto of the Reading bill had very little effect on Reading. Toward noon, however, Jersey Central and Delaware & Hudson fell off. At this writing the general market is quiet and fairly steady at close to the opening prices.

New York, April 5.—Flour weak, with prices generally unchanged. Wheat opened weak at 1-8c lower, but soon rallied, advancing 3-8c; at noon the market being firm: Noo. 2 red winter, 98 3-4c cash; April, 93 1-8c; May, 91c; June, 88 7-8c. Corn strong at 1-2c advance; No. 2 mixed, 50 1-4@50 1-2c cash; May, 46c; June, 44 1-4c. Oats steady; No. 2 mixed, 34 1-2 cash; May, 34 1-2c; August 34 1-8c. Rye dull; 88@91c in car lots. Barley nominal: No. 2 Milwaukee, 68c. Molasses steady; New Orleans, 30@36c. Sugar, refined in light request; cutloaf and crushed, 5@5 1-8c; granulated, 4 3-8&4 5-8c. Coffee steady; fair rio cargoes, 16 1-4c. Rice nominal. Pork dull; new mess, $11 00@11 50. Lard quiet; May, 86 52; July, $6 64. Butter dull, new western creamery, 27@27 1-2c. Cheese, quiet; state factory, fancy, 12 1-4c. Eggs firm; state fresh, 14 1-4@14 1-2c; western do., 14 1-4c. Turpentine dull at 38c. Rosin quiet; strained to good, $1 37@1 40. Tallow fairly active; prime city, 4 3-4c. Petroleum nominal. Freights quiet, unchanged.

AT THE TOLEDO THEATERS

The Limited Mail Opens at the People's.

The Cornell Boys To-night—She Couldn't Marry Three To-morrow Evening—Sol Smith Russell Saturday Night.

The Limited Mail packed the People's from pit to dome last evening, and people were turned away.

It is a realistic comedy in four acts, describing railroad life in the west, in a most vivid manner. The production was written by the present proprietor, who was at the time, a telegraph operator at Columbus, O. The piece is put on with all the mechanical effects given to the railroad business, which are worked even more effectively than during the last visit to the city. The cast is just as strong. Harry Blaney made his usual hit as John Harland, and Grace Sherwood as Nellie Harland, is vivacious, and has a very agreeable presence.

W. J. Dixon is an artist in his line and his portrayal of Zeke Harland was fine.

Nothing but packed houses the remainder of the week.

Sol Smith Russell.

Sol Smith Russell, who is a perennial favorite with all who can appreciate refined comedy, will be a welcome figure at the Wheeler opera house Saturday evening. His art, always effective, has mellowed and ripened so much of late that it justly deserves high rank. A Poor Relation a play in which Mr. Russell has made a national fame, will be the attraction. It is a pretty story, with touches of nature which absorb human interest. The constant humor, pure and elevating, is blended with pathetic incidents, forming a production of delightful simplicity. The central character might have been drawn by Dickens in so far as its chief characteristics are concerned. He is a shabby genteel, big hearted fellow, and Russell fits the part to perfection.

The Cornell Boys.

The Cornell Glee, Banjo and Mandolin clubs will appear at Wheeler's this evening. Every seat in the orchestra and most of those in the dress circle are taken and a big house is assured. A reception will follow the entertainment at the residence of J. H. Doyle.

To-Morrow Evening.

To-morrow evening Miss Lillian Kennedy, the dashing English soubrette, will appear at Wheeler's in She Couldn't Marry Three, a piece that has made a decided hit wherever it has been presented. She is supported by a strong company and the play will be staged in an exceptionally fine manner. The company carries all its own scenery, and the mechanical effects are said to be most realistic.

Gifford-Eddy Concert.

The sale of seats for the Gifford-Eddy concert at St. Paul's church Wednesday, April 13, will commence at J. J. Freeman's to-morrow morning. Toledoans are anxious to hear Miss Gifford, and there will no doubt be a large audience.

Mr. Burns of New York.

The dramatization of Gunter's famous novel, Mr. Barnes of New York, will be put on at Wheeler's, Monday and Tuesday evenings next week, under the management of Frank W. Sanger, of the Broadway theater, New York. Some of the finest scenery ever put on a Toledo stage will be used in the piece. It is all from the brush of Phillip Goacher, who has done some clever work for New York productions the past few years.

Constipation and all troubles with the digestive organs and the liver, are cured by Hood's Pills. Unequalled as a dinner pill.

FIRST-RATE SHOWING.

The Toledo Postoffice Report Shows Considerable Gains.

The following report was issued by Deputy Postmaster Corlett yesterday, and speaks for itself:

The total number of pieces of mail handled in the mailing division of the Toledo division of the Toledo, O., postoffice for the month of March, 1892, was 3,291,070, of which 1,558,520 was matter of the first class, and 1,732,550 was matter of all other classes.

The numbers of errors made in handling the above mail was 113 of matter of the first class, and 20 of matter of all other classes, making 13,792 pieces handled correct to each error made in the matter of the first class, and 86,627 pieces handled correct to each error made in all other classes. The average per cent. correct on mail matter handled for the month is 99.99.

The number of errors made by the patrons of the Toledo postoffice during the month of March was as follows: 1,554 pieces of all classes of mail matter, of which 305 pieces were corrected at the postoffice and forwarded to destination, making 1,249 pieces returned to senders for correct address. There was held for postage 401 pieces of matter of the first class, 498 pieces of the second class, and 117 pieces of the third class, making a total of 1,016 pieces held for postage.

Four case examinations were held during the month, in which 6,118 cards (representing postoffices) were handled, of which 6,099 were handled correct, making 19 errors in the whole number handled. The average per cent. correct is 99.68.

From the number of errors in the above report it will be noticed that the majority of them are made by parties who mail letters, and who invariably insist that they have properly addressed all their letters. This is a serious matter, as it interferes greatly with the delivery of mail, and the mistakes reflect upon the office as a fault there, when, as a matter of fact, the patrons of the office are themselves to blame It tends to show more than ever the necessity for everybody who sends letters putting their names on the upper left hand corner, so as to at once give knowledge of who mailed them, and enable the correction to be made quickly.

Following is the statement of receipts and disbursements of the Toledo office for the month, quarter and year ending March 31, 1892, as compared with the corresponding periods of each year:

MERCHANT TAILORS'
MISFIT CLOTHING PARLORS,
Wednesday, April 6th.

Our Fine Spring Showing has Tumbled us Headlong into Popular Favor. Every Day Swells this Chorus.

WHAT ARE MISFITS?

In answer to the question, "What are Misfits?" we offer a few words in explanation. They are simply goods left on merchant tailors' hands for the reason that they did not fit the parties they were originally intended for, or because they were not called for.

WHERE DO WE GET THEM?

This question is asked of us innumerable times. To this we will also offer a few words of explanation. We have men employed who are constantly visiting the principal cities of the United States and buying up from the leading Merchant Tailors any Misfit or Uncalled-for Garments they may have.

These goods are purchased by them at almost their own prices, so that we are enabled to sell them for less than One-Half their Original Ordered price.

These goods are cut in the very latest styles, and in any shape shown on the fashion plates, and are made from the very finest Imported and Domestic Fabrics.

Our line consists of Prince Alberts, Three and Four-Button Cutaways, Full Dress and Business Suits, Sacks in single and double-breasted, Coats and Vests, Single Pants, and an endless variety of Fancy Silk Dress Vests, and all to be sold at prices that will astonish you.

CALL AND CONVINCE YOURSELF.

☞ We will be pleased to have you call and look our line over, whether you intend purchasing or not, as we are confident that if we cannot sell to you we can at least impress you with the fact that we are offering Merchant Tailor-Made Garments at less than it costs you to buy Ready-Made Clothing.

If you will kindly glance through the following quotations you can form a slight idea of what we are offering:

A $22 Custom-Made Suit or Spring Overcoat for $10 00
A $30 Custom-Made Suit or Spring Overcoat for $13 50
A $40 Custom-Made Suit or Spring Overcoat for $18 00
A $50 Custom-Made Suit or Spring Overcoat for $22 50
A $60 Custom-Made Suit or Spring Overcoat for $27 50

A Complete Line of Full Dress Suits and Tuxedos.

A Nobby and Complete Line of Pantaloons from $2.50 to $9. Made for double the money.

MYRTLE AS A FLAVOR.

In Italy the myrtle is used to flavor a great many dishes that with us are seasoned with pepper and salt. We should not regard a roast of meat flavored with the peculiar odor of the myrtle as in any way improved, but the Italians like the taste and the perfume, and use it both in fish, meat and macaroni. The perfume of the myrtle is found even in its leaves, and a great many sachet powders are made from pulverized leaves of this shrub. It is said that even the wine in Italy is flavored with it, but if so it is not exported, for foreign taste would scarcely endure so perceptible an addition.

The new coating for metals, based on the remarkable adaptability of cottonseed to unite with lead, has, after a thorough test, been found to give surprising results in resisting the effects of weather and water. Five liters of cottonseed oil are placed in a metallic vessel and 10 kilograms of lead are melted separately in an iron ladle. When the lead is molten, which requires a temperature of about 335 degrees, it is poured gradually into the oil, and stirred about so thoroughly that every particle of the lead is subjected to the action of the oil. The mixture is then allowed to cool. When the oil is poured off the lead is found at the bottom, but reduced in weight 8.5 kilograms, the remaining 1 1-2 kilograms having been absorbed by the oil. The residue at the bottom of the vessel is again submitted to the process of heating and stirring, which is continued five times, after which the maximum impregnation of five kilograms is obtained.

When quite cold the oil has the appearance of thick varnish, and is ready for application, either with a brush or sponge. This coating unites quickly and firmly with any material. The first coat should be allowed to dry 48 hours before the second is administered.
